PRECOLLEGE PIPELINE DATA OVERVIEW

The Precollege Pipeline Data for this report was developed using the Department of Public Instruction (DPI) 2006-07 report **Public Enrollment by District by School by Ethnicity (PESE)**

PURPOSE

To identify Students of Color (SOC) populations in the Wisconsin Precollege Pipeline, by Wisconsin school district, school, grade, ethnicity, gender percentages.

Expected results

Identify districts and schools with high concentrations of SOC
 Identify next generation students in the precollege pipeline
 to track students moving out of elementary school, into middle school, high school and on to college.
 As a possible recruitment tool, long range planning tool.

There are four tables developed for this effort.
