

## CDR Liaisons

The CDR liaisons are institutional representatives responsible for the coordination of all activities at their institutions which relate to the preparation and submission of CDR data. As a part of these coordination responsibilities, liaisons will work with functional area staff (such as in Admissions, Financial Aid, and Registrar's Offices) and with information technology staff to ensure the accuracy and completeness of CDR data submissions for their institution. For "PeopleSoft campuses," liaisons will represent their institution on CDR issues related to the CDR/MAAD/TIS interface programs, ensuring involvement from functional and technical staff so that informed and timely decisions can be made.
