The TEACH Work Group recommended that UWSA create a web-based “tool kit” or clearinghouse where existing resources could be posted for use by all campuses and emerging materials and strategies developed by campuses could be posted. This tool kit would be a resource for the campuses and is not intended as a resource for prospective students. It would still be the responsibility of each campus to provide relevant information for their students. The specific UWSA host site for this toolkit is still being explored.

The creation of the tool kit is in process and will include specific references, materials and links such as the following:

- Campus contact information (FAO and Education representative)
- Examples of web-based advising protocols
- AACTE Implementing TEACH grants 2008 Power Point presentation
