Introduction

This report contains data regarding multicultural and disadvantaged (M/D) precollege activity at UW System institutions. Section I describes participant characteristics from 2003-04 through 2007-08. Section II examines the path from M/D precollege participation to a UW institution using all years of data (1993-94 through 2007-08).

Prior to 2003-04, precollege data were collected primarily for program operations and recruitment. Beginning in 2003-04, reporting guidelines and procedures were implemented to facilitate reporting of more accurate and complete information.

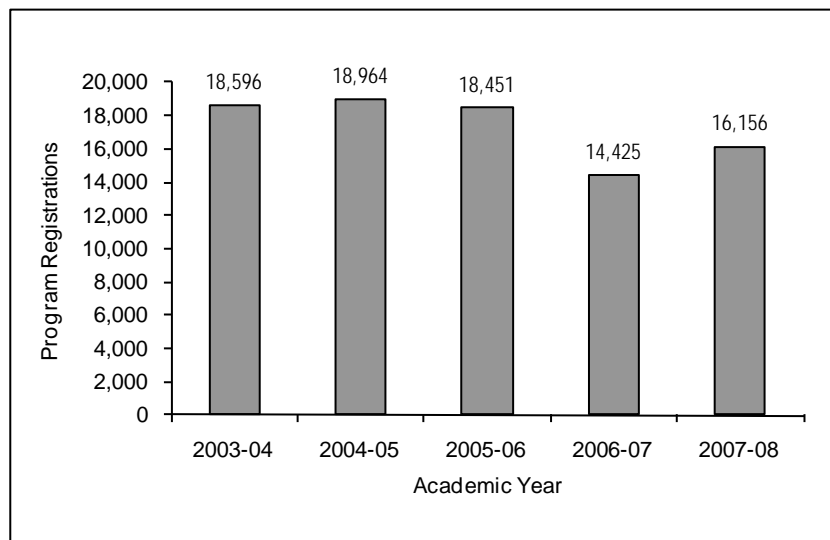

Section I: Participation in UW System M/D Precollege Programming

Registrations

Participant registrations for M/D precollege programs at UW System institutions rose from 18,596 in the 2003-04 academic year, to 18,964 in 2004-05. Registrations in 2007-08 reached 16,156 following a drop to 14,425 in 2006-07. These fluctuations are primarily due to changes in the federal GEAR UP program and a reduction in the number of precollege scholarships from the Wisconsin Department of Public Instruction. See the Technical Notes for further details.

Table 1 and Figure 1
UW System M/D Precollege Program Registrations
2003-04 through 2007-08

Academic Year	UW System
2003-04	18,596
2004-05	18,964
2005-06	18,451
2006-07	14,425
2007-08	16,156

Counting M/D Precollege Registrations

UW System M/D precollege program registrations count each participant once for each M/D program enrolled in during each academic year. In consequence, an individual enrolling in three different M/D programs throughout one academic year would be counted three times, while an individual enrolling in one M/D program during one academic year would be counted once.

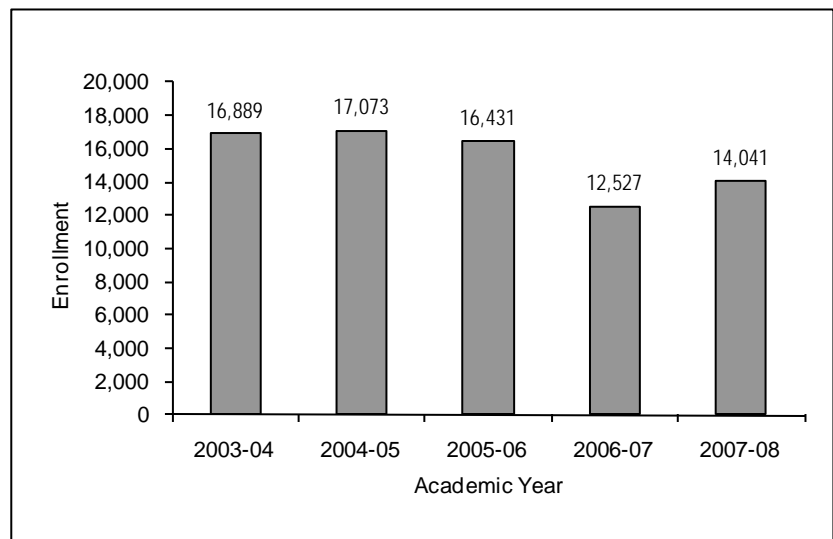

Enrollment: Annual Unduplicated Headcount

The UW System M/D precollege annual unduplicated headcount indicates the number of individuals engaged in M/D precollege activity within an academic year. Unduplicated annual headcount figures do not reflect multiple program registrations by individuals at single UW institutions. Hereafter, “enrollment” refers to the UW System M/D precollege annual unduplicated headcount.

Enrollment in UW System M/D precollege programs increased from 16,889 individuals in 2003-04 to 17,073 in 2004-05 then declined by 642 individuals, or 3.8 percent, to 16,431 in 2005-06. A decline in enrollment to 12,527 (23.8%) occurred in 2006-07. Enrollment increased to 14,041 in 2007-08, growing 12.1 percent. As stated on the previous page, this decline is primarily due to changes in the federal GEAR UP program and a reduction in the number of precollege scholarships from the Wisconsin Department of Public Instruction. See the Technical Notes for further details.

**Table 2 and Figure 2
UW System M/D Precollege Enrollment
Annual Unduplicated Headcount
2003-04 through 2007-08**

Academic Year	UW System
2003-04	16,889
2004-05	17,073
2005-06	16,431
2006-07	12,527
2007-08	14,041

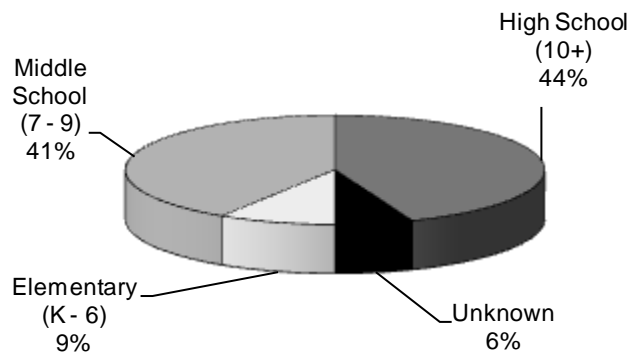

Level in School at Time of Participation

Through the past five years, 9 percent of UW System M/D precollege participants were enrolled in elementary school, 41 percent in middle school, and 44 percent in high school. The level in school at the time of participation is unknown for 6 percent of these participants. See appendix A for further detail.

**Table 3
UW System M/D Precollege Enrollment by Level in School
2003-04 through 2007-08**

Academic Year	School Level								Total #
	Elementary School (grades K - 6)		Middle School (grades 7 - 9)		High School (grades 10 - post HS)		Unknown		
	#	%	#	%	#	%	#	%	
2003-04	1,326	8%	6,839	40%	6,584	39%	2,140	13%	16,889
2004-05	1,112	7%	7,380	43%	8,179	48%	402	2%	17,073

2006-07	1,455	12%	5,091	41%	5,222	42%	759	6%	12,527
2007-08	963	7%	6,927	49%	5,689	41%	462	3%	14,041
Average	9%		41%		44%		6%		

**Figure 3
UW System M/D Precollege Enrollment by Level in School
Average for 2003-04 through 2007-08**

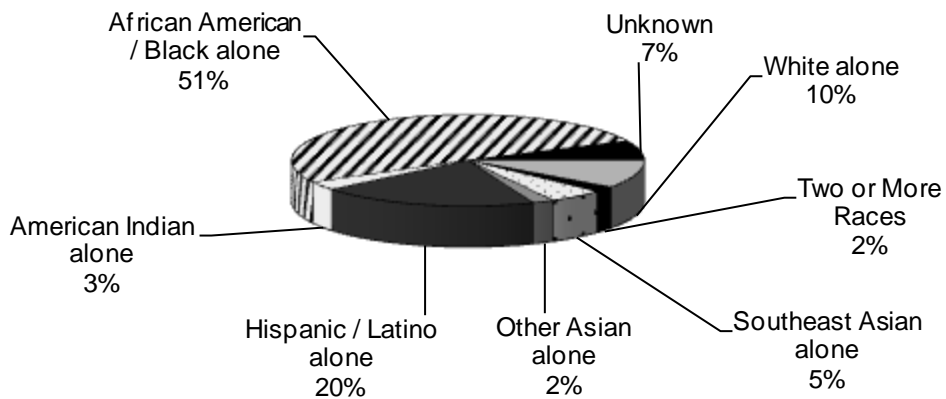

Race/Ethnicity

In the past five years, the proportion of enrollment by race/ethnicity remained steady for most classifications of UW System M/D precollege participants. Through this period, students of color averaged 82 percent, individuals indicating their race/ethnicity as African American/Black alone averaged 51 percent, and participants describing themselves as Hispanic/Latino alone composed 20 percent of annual enrollment on average. Participants indicating their race/ethnicity as encompassing two or more races consisted of 2 percent of participants during this time.

**Table 4
UW System M/D Precollege Enrollment by Race/Ethnicity
2003-04 through 2007-08**

Academic Year	African American / Black alone		American Indian alone		Hispanic / Latino alone		Other Asian alone		Southeast Asian alone		Two or more races		Sub-total: Students of Color		White alone		Unknown		Total Students

**Figure 4
UW System M/D Precollege Enrollment by Race/Ethnicity
Average for 2003-04 through 2007-08**

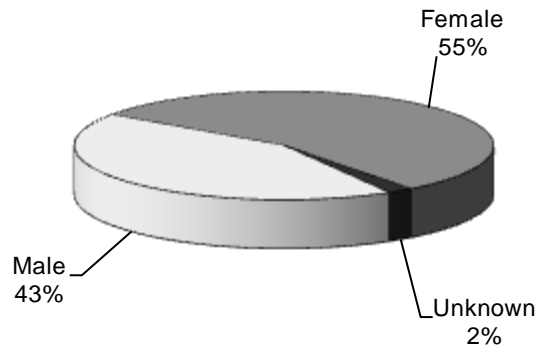

Gender

Through the past five years, female participants have consistently been in the majority, averaging 55 percent of UW System M/D precollege enrollment. Over 9,000 female participants enrolled each year from 2003-04 through 2005-06, with over 7,200 enrolled in 2006-07, and nearly 8,000 in 2007-08.

**Table 5
UW System M/D Precollege Enrollment by Gender
2003-04 through 2007-08**

Academic Year	Male		Female		Unknown		Total
	#	%	#	%	#	%	#
2003-04	7,535	45%	9,152	54%	202	1%	16,889
2004-05	7,594	44%	9,193	54%	286	2%	17,073
2005-06	7,075	43%	9,060	55%	296	2%	16,431
2006-07	5,081	41%	7,278	58%	168	1%	12,527
2007-08	5,838	42%	7,960	57%	243	2%	14,041
Average	43%		55%		2%		

**Figure 5
UW System M/D Precollege Enrollment by Gender
Average for 2003-04 through 2007-08**

Race/Ethnicity and Gender

Examination of the average proportion of UW System M/D precollege participants by race/ethnicity and by gender through this five year time period reveals that 29 percent were female and African American/Black alone, 22 percent were male and African American/Black alone, 47 percent were female students of color, and 35 percent were male students of color. See appendix B for further detail.

**Table 6
UW System M/D Precollege Enrollment by Race/Ethnicity and Gender
2003-04 through 2007-08**

Section II: Higher Education Pipeline - The Path from M/D Precollege to a UW Institution

M/D Precollege Participant Involvement in Higher Education

The path to higher education often includes ACT or SAT test taking, and requires application, admission, and enrollment in an institution of higher education. The Social Security Number (SSN) provides a mechanism to track M/D precollege participants' engagement in these activities. Therefore, an examination of the quality of SSNs in the database provides insight into the ability to measure the proportion of M/D precollege participants engaged in the higher education pipeline. See appendix C for further detail.

Table 7
UW System M/D Precollege Participants
with a Social Security Number (SSN)
2003-04 through 2007-08 and All Years Combined (1993-94 to 2007-08)

Academic Year	Enrollment	With SSNs		Without SSNs	
		#	%	#	%
2003-04	16,889	8,072	48%	8,817	52%
2004-05	17,073	8,703	51%	8,370	49%
2005-06	16,431	8,606	52%	7,825	48%
2006-07	12,527	8,199	65%	4,328	35%
2007-08	14,041	8,193	58%	5,848	42%
1993-94 to 2007-08	76,961	41,773	54%	35,188	46%

Increasing the proportion of M/D participants in the database with SSNs will increase the ability to provide information regarding M/D precollege participant success at enrolling in college. The proportion of UW System M/D precollege participants with SSNs submitted to the M/D precollege database increased from 48 percent in 2003-04 to 65 percent in 2006-07, then dropped to 58% in 2007-08. Examining all M/D participants from 1993-94 to 2007-08, 54 percent (41,773) have SSNs in the database.

Provision of Social Security Numbers

The completeness and quality of SSN data submitted to the M/D precollege database has varied with each submission and source of data. Several factors may contribute to this. These include M/D precollege participants not providing an SSN, providing an invalid SSN, or entire programs not collecting or submitting SSNs.

Estimated High School Graduates

Further analysis of M/D participants in the higher education pipeline is limited to 37,303 participants who are estimated high school graduates and have SSNs in the database. This is the group for whom enrollment in a UW is most likely to occur, and may be measured. See appendix D for further detail.

Table 8
UW System M/D Precollege Participants
Estimated High School Graduates with SSNs
1993-94 through 2007-08

Estimated HS Graduates	With SSNs		Without SSNs	
	#	%	#	%
54,606	37,303	68%	17,303	32%

ACT Test Taking

The ACT test taking rate of UW System M/D precollege participants who are estimated high school graduates with SSNs in this database is 44 percent. See appendix E for further detail. The proportion of all 2008 Wisconsin high school graduates that took the ACT is 66 percent.

Ninety-eight percent (98%) of these UW System M/D precollege participants were in 11th or 12th grade at the most recent time they took the ACT. Likewise, 99 percent of Wisconsin ACT test takers were in 11th or 12th grade at the time they took the ACT.

The average score for UW System M/D precollege ACT test takers is 19.8. The average ACT score of Wisconsin high school students graduating in 2008 is 22.3.

Table 9
UW System M/D Precollege Participants
Estimated High School Graduates and ACT Test Taking
1993-94 through 2007-08

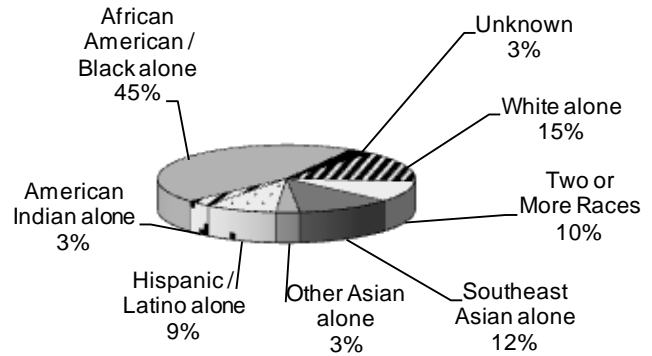

Total Estimated HS Graduates with SSNs	37,303
Number who took the ACT	16,342
Percent who took the ACT	44%

Race/Ethnicity and Gender of ACT Test Takers

Students of color comprise 82 percent of UW System M/D precollege participants who are estimated high school graduates and took the ACT test. See appendix F for further detail.

**Table 10 and Figure 6
UW System M/D Precollege Participants
ACT Test Takers by Race/Ethnicity
1993-94 through 2007-08**

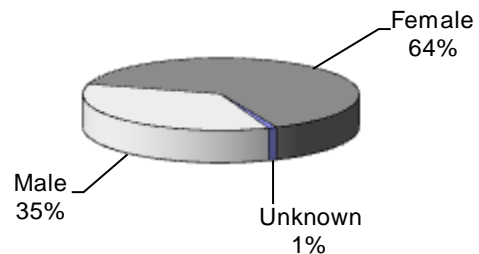

Race/Ethnicity	ACT Test Takers	
	#	%
African American/Black alone	7,375	45%
American Indian alone	432	3%
Hispanic/Latino alone	1,486	9%
Other Asian alone	461	3%
Southeast Asian alone	1,901	12%
Two or more races	1,710	10%
Sub-total: Students of Color	13,365	82%
White alone	2,421	15%
Unknown	556	3%
Total	16,342	100%

Females compose nearly two-thirds (64%) of UW System precollege participants who are estimated high school graduates and took the ACT test. See appendix G for further detail.

**Table 11 and Figure 7
UW System M/D Precollege Participants
ACT Test Takers by Gender
1993-94 through 2007-08**

Gender	ACT Test Takers	
	#	%
Female	10,547	64%
Male	5,668	35%
Unknown	127	1%
Total	16,342	100%

Participants Who Enrolled as New Freshmen in the UW System

By comparing SSNs of M/D precollege participants with SSNs of students enrolled in UW institutions, we may determine how many M/D precollege participants have enrolled in a UW institution as new freshmen. Generating this comparison reveals 8,533 (23%) of UW System M/D precollege participants enrolled at some time as new freshmen in any UW institution and 9 percent (3,388) enrolled as new freshmen in the same UW institution attended as a UW System M/D precollege participant. These results are consistent with previous analyses.

**Table 12
UW System M/D Precollege Participants
Enrolled as New Freshmen at UW Precollege Institution and Any UW Institution
1993-94 through 2007-08**

Total Estimated HS Graduates with SSNs	37,303	100%
Attending Any UW Institution as New Freshmen	8,533	23%
Attending Same UW Institution as New Freshmen	3,388	9%

In Table 13, the UW System (UWS) row (bottom row of the table) indicates the total number of M/D precollege participants from each UW institution who enrolled as new freshmen at any UW institution. For example, 2,851 UW-Milwaukee M/D precollege participants enrolled as new freshmen at any UW institution and of these 1,335 enrolled as new freshmen at UW-Milwaukee. The remaining 1,516 UW-Milwaukee M/D precollege participants enrolled as new freshmen at a UW institution other than UW-Milwaukee.

The UW System (UWS) column in Table 13 (right side of the table) shows the total number of M/D precollege participants from any UW institution enrolled as new freshmen at each UW institution. At UW-Milwaukee 2,361 new freshmen were former M/D precollege participants at any UW institution. Of these UW-Milwaukee new freshmen, 1,335 were M/D precollege participants at UW-Milwaukee and the remaining 1,026 attended M/D precollege programming at another UW institution. The shaded cells (upper left to lower right) indicate the number of M/D precollege participants at each UW institution who attended the same UW institution as new freshmen.

**Table 13
UW System M/D Precollege Participants

Higher Education Pipeline Summary

The UW System M/D precollege database contains records showing 74,379 participants in UW System M/D precollege programs from 1993-94 through 2007-08. There are viable SSNs in the UW System M/D precollege database for 56 percent (41,805) of UW System M/D precollege participants. Social Security Numbers provide a mechanism through which ACT test taking and enrollment in a UW institution may be measured.

Half (37,303 or 50%) of UW System participants are estimated to be high school graduates and have viable SSNs in the M/D precollege database. Of UW System participants estimated to be high school graduates with viable SSNs, 8,533 or 23 percent have enrolled in a UW institution as new freshmen. Two-fifths (3,388 or 40%) of UW System participants who enrolled in a UW institution as new freshmen enrolled at the same UW institution where they were M/D precollege participants.

Figure 8
Higher Education Pipeline
From UW System M/D Precollege Participation to UW Enrollment
1993-94 through 2007-08

Race/Ethnicity of Participants Who Enrolled as New Freshmen in the UW System

Students of color constitute 81 percent of UW System M/D precollege participants enrolled as new freshmen at the same UW institution attended as a UW System M/D precollege participant, and 38 percent indicate their race/ethnicity as African American/Black alone. See appendix H for further detail.

Among UW System M/D precollege participants who enrolled as new freshmen at any UW institution, 81 percent are students of color and 38 percent indicate their race/ethnicity as African American/Black alone. See appendix I for further detail.

Gender of Participants Who Enrolled as New Freshmen in the UW System

Females compose 62 percent (2,100) of UW System M/D precollege participants enrolled as new freshmen at the same UW institution attended as a UW System M/D precollege participant. See appendix J for further detail.

Sixty-two percent (5,251) of UW System M/D precollege participants enrolled as new freshmen at any UW institution are also female. See appendix K for further detail.

Technical Notes

General

Unless otherwise specified, UW System Administration (UWSA) is the source of the data and information presented in this report. M/D precollege participation data include academic years 1993-94 through 2005-06. Data measuring M/D precollege participants enrolling at UW institutions as new freshmen include academic years 1993-94 through 2007-08.

For the purpose of the UWSA M/D precollege database, “multicultural” includes students of African American, Hispanic/Latino, American Indian, Asian, and Southeast Asian participants. “Disadvantaged” refers to economic disadvantage as defined by eligibility for the National School Lunch Program free or reduced price lunch.

Figures include participants funded through federal, state, and other sources.

During the winter of 2003-04, the UWSA Office of Policy Analysis and Research (OPAR) assumed custodial responsibility for the M/D precollege database. Until the winter of 2003-04, the database was maintained by the UWSA Multicultural Center for Education Excellence (MCEE).

It is possible that not all UW System M/D precollege activity has been provided for each year of data. As campuses increasingly provide complete and accurate data regarding M/D precollege programs and participants, the capacity of the database to analyze the success of UW System M/D precollege efforts will increase.

The definition of “academic year” used by the UW System M/D precollege database consists of the summer term followed by the fall term, and ends with the spring term. For instance, academic year 2004-05 includes the summer of 2004, fall of 2004, and spring of 2005.

Section I: Participation in UW System M/D Precollege Programming

Program Registrations and Enrollment

Registration and enrollment fluctuations from 2005-06 through 2007-08 are due to differences in alignment between federal GEAR-UP cohorts and UW System M/D precollege reporting, a change in the number of students served through federal GEAR-UP funding, and a decline in the number of precollege scholarships from the Wisconsin Department of Public Instruction.

Enrollment by Race/Ethnicity

Race/ethnicity “alone” categories indicate that only one race/ethnicity was indicated by the participant. The categorization “Students of Color” includes all students except those who indicated White alone or Unknown.

Estimated High School Graduates

This estimation is based on the grade level at, and amount of time elapsed since the most recent participation.

Section II: Higher Education Pipeline - The Path from M/D Precollege to a UW Institution

Estimate of High School Graduation

For the purpose of this report, high school graduation is determined by viewing participants’ maximum grade level in the database, and how much time has passed since the most recent participation in order to determine if they would be estimated to have graduated from high school.

Enrollment as New Freshmen in the UW System

New freshmen are defined as degree-seeking undergraduates with no creditable coursework in higher education other than credits earned during Summer Session or while in high school.

Section III: Appendices

Appendices A, B, and C

These appendices show only the 3 most recent academic years. Previous data are available in prior reports.
