Wisconsin Association for Biomedical Research & Education to Release *Bioscience Wisconsin 2004* at Wisconsin Economic Summit IV, October 27, 2003.

The Wisconsin Association for Biomedical Research & Education (WABRE) will release its latest report, *Bioscience Wisconsin 2004*, Monday, October 27th at 12:00 noon at the Wisconsin Economic Summit IV, Midwest Airlines Center, downtown Milwaukee. *Bioscience Wisconsin 2004* gives an accurate picture of bioscience in the state of Wisconsin and documents:

- The growth of bioscience in the state and nationwide.
- The economic impact that bioscience research, development and industry have in Wisconsin.
- The opportunities for economic development presented by highly-specialized research in the state.
- The vast range of research being conducted at Wisconsin institutions.

Gale Davy, Executive Director of WABRE, will present findings from the report including the latest Wisconsin numbers for:

- Research funding.
- Bioscience Industry sales and employment.
