QUICK GUIDE: Navigation 101

Signing Into UWBI

- Go to UWBI Production: [https://uwbi.wisconsin.edu](https://uwbi.wisconsin.edu)
- The Home page is shown in the screenshot below.
  1. The **Home** link is always visible and will always return the user to the Home page.
  2. The **Catalog** link opens the OBIEE Web Catalog for management.
  3. The **Favorites** link allows you to save analyses into a shortcut list of frequently-accessed OBIEE content, and to quickly open those analyses from that list of shortcuts.
  4. The **Dashboards** link takes you into the OBIEE Dashboards environment and displays a list of all OBIEE Dashboards to which you have been granted access.
  5. The **New** link opens a list of content objects that you are eligible to create. Depending on security rights (Author or Consumer), different users will see different objects in this list.
  6. The **Open** link allows you to select and open stored web catalog content. The Recent and Most Popular sections reflect the same contents as shown in the main body of the page, while the icon will browse the web catalog, allowing you to locate and open content less recently accessed.

Announcements are enterprise-wide and will inform you of important updates or news.

Additional Resources listed here are enterprise-wide. Institution specific resources may be posted on your institutions landing page.
