Guide to Using the Web-based Planning Allocation View February 1, 2008

Before using the web-based planning allocation system, you need to have completed the following:

- 1.) Have a 3-character Logon ID assigned by DOIT,
- 2.) Submit an authorization form to DOIT; required to assign a password,
- 3.) Have web browser with Java Virtual Machine installed &
- 4.) Have an Adobe Reader installed

To use the Web-based Planning Allocation System the employee must have a 3-character Logon ID assigned by DOIT. Before a Logon ID can be assigned the employee needs to have an appointment in the UW payroll system. For most departments this means the HR department must enter the employee into the IADS system. A Logon ID cannot be assigned to a person who is not entered into the payroll system. The URL, https://it.wisc.edu/about/office-of-the-cio/cybersecurity/security-tools-software/authorizations/request-3-character-login-id-authorization/, is DOIT's website address for requesting the 3-character Logon ID.

Once you have a 3-character Logon ID, you need to fill out a Planning Allocation System Authorization form which can be found at: <u>https://www.wisconsin.edu/budget-planning/annual-operating-budget/</u>.

Any questions concerning the installation of the Java Virtual Machine or the Adobe Reader should be addressed to your local IT support person.

<u>STEP ONE:</u> To access the Web-based Planning Allocation System the user has two options. The first option would be to go directly to the UWSA Planning Allocation System Log On screen using the URL

https://ofr01.doit.wisc.edu/forms/frmservlet?config=pa.

The second option would be go to the UW System Administration Budget Office Online Reports page using URL

https://www.wisconsin.edu/budget-planning/annual-operating-budget/, and then click on the Planning Allocation Reports link.

The following screen will appear.

Once the report is generated, an Adobe Reader window should open up to display the report. You can navigate through the report just as you would any other Adobe file (e.g. use page up, page down, use the bookmarks along the left, the searching capability to locate a particular text string, etc.) The first page of the report will be the header page, followed by the actual allocation report. The sample below shows what the reports will look like.
