

DLE Advisory Council Meeting June 18, 2020

Members - all present

Minutes:

1. Welcome
2. Committee Charge
 - Renee will provide a streamline document showing how DLE AC fits with Enterprise Directions Council (EDC) and the RIDE Framework
3. Review Team Site
4. Discuss:
 - Initial DLE Roadmap
Feedback: members were generally pleased to see what was on the roadmap and agreed that the roadmap addressed the most pressing needs in calendar 2020
 - Motivation for a systemwide Proctoring Solution (prepared for the EDC)
Input:
 - Budget: consider the various contracting angles as the product is not likely to be used by every class and every instructor. Can licensing be done on a number of uses basis or a “bucket of use” basis that can be tapped by the various campuses as needed.
 - Accelerate the RFP timing – March 2021 was considered too far out in the future when the needs are immediate.
 - Partner with OPID on how to talk about Proctoring with faculty
 - Explore how the tool could be embedded in the course and not just for traditional assessment but also authentic assessment
