Overview

12-month Enrollment Overview

The 12-month Enrollment component collects unduplicated student enrollment counts and instructional activity data for an entire 12-month period. Using the instructional activity data reported, a full-time equivalent (FTE) student enrollment at the undergraduate and graduate level is estimated. Institutions with Doctor's - professional practice students will also report the FTE enrollment of those students. NCES uses the FTE enrollment to produce indicators such as expenses by function per FTE as reported in the IPEDS Data Feedback Report.

Data Reporting Reminder

- All institutions must use the July 1 - June 30 reporting period.

Changes to reporting for 2019-20

- The term 'contact hour' has been replaced with the term 'clock hour'
- The term 'formal award' has been replaced with the term 'recognized postsecondary credential'
- There is a new instruction to exclude students participating in Experimental Pell (See <https://experimentalsites.ed.gov/exp/approved.html>)

For 2020-21 changes, please review the preview screens available on the [Survey Materials](#) page.

Part B - Instructional Activity

12-month Instructional Activity

Instructional Activity Reporting Reminder:

•Instructional activity is used to calculate an IPEDS FTE based on the institution's reported calendar system.

FTE Reporting Reminder:

•Institutions need not report their own calculations of undergraduate FTE unless IPEDS FTE calculations would be misleading for comparison purposes among all IPEDS reporting institutions.

Instructional Activity

Undergraduate level:

Credit hour activity	10,116	9,928

Calendar system (as reported on the prior year IC Header survey component): **Other academic calendar**

If the IPEDS calculated FTE estimates below are not reasonable, **AND** you have reported the correct instructional activity hours above, enter your best FTE estimate in the "Institution reported FTE" column below and save the page. This option should be used **ONLY** if the calculated estimate is not reasonable for your institution and IPEDS comparisons.

Please provide your best estimate of undergraduate FTE for the 12-month reporting period **only if the calculated FTE estimate below is not reasonable for IPEDS comparison purposes:**

IPEDS collects important information regarding your institution. All data reported in IPEDS survey components become available in the IPEDS Data Center and appear as aggregated data in various Department of Education reports. Additionally, some of the reported data appears specifically for your institution through the College Navigator website and is included in your institution's Data Feedback Report (DFR). The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your DFR. College Navigator is updated approximately three months after the data collection period closes and Data Feedback Reports will be available through the [Data Center](#) and sent to your institution's CEO in November 2019.

Please review your data for accuracy. If you have questions about the data displayed below after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Screen: Instructional Activity				
Screen Entry	The institution reported FTE entered on the Part B - Instructional Activity screen is significantly different from the estimate calculated from the instructional activity data. FTE should be calculated based on the total clock hours or credit hours (instructional activity) in which an average full-time student is expected to enroll over a 12-month period. Please correct your data or explain the reason for this variance, detailing the method used to calculate the entered FTE. (Error #9215)	Explanation	Yes	
Reason:	UW Flexible Option programs enroll non-traditionally aged students who usually work full-time and have family obligations. As such, nearly all enrollments are part-time by standard definitions (i.e., under 15 credits per term). A more representative divisor for an institution reported FTE was determined by all UW institutions with Flexible Option programs. The divisor was determined to be 18, which has a rubric behind it, establishing its logic.
