

12-month Enrollment 2020-21

Institution: University of Wisconsin-Parkside Flex (491297)

User ID: 55C0011

Overview

12-month Enrollment Overview

The 12-month Enrollment component collects unduplicated student enrollment counts and instructional activity data for an entire 12-month period. Using the instructional activity data reported, a full-time equivalent (FTE) student enrollment at the undergraduate and graduate level is estimated (4-year institutions only). Institutions with Doctor's - professional practice students will also report the FTE enrollment of those students (4-year institutions only). NCES uses the FTE enrollment to produce indicators such as expenses by function per FTE as reported in the IPEDS Data Feedback Report.

Data Reporting Reminder:

- All institutions must use the July 1 - June 30 reporting period.
- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting. For example, if a summer term began later than usual due to Coronavirus Pandemic postponements, continue to report using the timeframes as defined in the IPEDS instructions. NCES expects that some data reported during the 2020-21 data collection year will vary from established prior trends due to the impacts of Coronavirus Pandemic. If an error edit is triggered even when submitting accurate data, please indicate in the corresponding context box or verbally to the Help Desk that the seemingly inconsistent data are accurate and reflect the effects of Coronavirus Pandemic.

Changes to reporting for 2020-21:

- Unduplicated enrollment counts of undergraduate students are collected by gender, attendance status (full-time, part-time), race/ethnicity, first-time (entering), transfer-in (non-first-time entering), continuing/returning, and degree/certificate-seeking statuses.
- Unduplicated enrollment counts by distance education status are collected.

If you have questions about completing this survey, please contact the IPEDS Help Desk at 1-877-225-2568.

Undergraduate Instructional Activity Type

Which instructional activity units will you use to report undergraduate instructional activity?

- Undergraduate instructional activity data in Part B may be reported in units of clock hours or credit hours.
 - Please note that any graduate level instructional activity must be reported in credit hours. (4-year institutions only)
- ☐ Clock hours
- ☒ Credit hours
- ☐ Both clock and credit hours (some undergraduate programs measured in clock hours and some measured in credit hours)

 You may use the box below to provide additional context for the data you have reported above. Context notes will be posted on the College Navigator website. Therefore, you should write all context notes using proper grammar (e.g., complete sentences with punctuation) and common language that can be easily understood by students and parents (e.g., spell out acronyms).

Part A - Unduplicated Count for Full-time Undergraduate Students

12-month Unduplicated Count by Race/Ethnicity and Gender - Full-time Undergraduate Students

July 1, 2019 – June 30, 2020

Reporting Reminders:

- The 12-month unduplicated count must be equal or greater than the corresponding prior year fall enrollment.
- Report Hispanic/Latino individuals of any race as Hispanic/Latino
- Report race for non-Hispanic/Latino individuals only
- Even though Teacher Preparation certificate programs may require a bachelor's degree for admission, they are considered subbaccalaureate undergraduate programs, and students in these programs are undergraduate students.

Part B - Instructional Activity

12-month Instructional Activity

July 1, 2019 - June 30, 2020

Instructional Activity Reporting Reminder:

- Instructional activity is used to calculate an IPEDS FTE based on the institution’s reported calendar system.

FTE Reporting Reminder:

- Institutions need not report their own calculations of undergraduate FTE unless IPEDS FTE calculations would be misleading for comparison purposes among all IPEDS reporting institutions.

Reporting Reminders:

- The name of the preparer is being collected so that we can follow up with the appropriate person in the event that there are questions concerning the data.
- The Keyholder will be copied on all email correspondence to other preparers.
- The time it took to prepare this component is being collected so that we can continue to improve our estimate of the reporting burden associated with IPEDS.
- Please include in your estimate the time it took for you to review instructions, query and search data sources, complete and review the component, and submit the data through the Data Collection System.
- Thank you for your assistance.

Summary screen

12-Month Enrollment Component Summary

IPEDS collects important information regarding your institution. All data reported in IPEDS survey components become available in the IPEDS Data Center and appear as aggregated data in various Department of Education reports. Additionally, some of the reported data appears specifically for your institution through the College Navigator website and is included in your institution's Data Feedback Report (DFR). The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your DFR. College Navigator is updated approximately three months after the data collection period closes and Data Feedback Reports will be available through the [Data Center](#) and sent to your institution's CEO in November 2020.

Please review your data for accuracy. If you have questions about the data displayed below after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Edit Report

12-month Enrollment

| Source | Description | Severity | Resolved | Options |
|--------------------------------|---|-------------|----------|---------|
| Global Edits | | | | |
| Perform Edits | The 12-month unduplicated count of undergraduate students for Asian Women (1) is different than expected when compared with the same category (2) in the prior year Fall Enrollment survey, because the official fall enrollment reporting date falls within the 12-month timeframe for E12. Please correct your data or explain. (Error #9358) | Explanation | Yes | |
| Reason | The 12 Month Enrollment survey encompasses a larger time frame than does the Fall Enrollment survey. Additional enrollments of Asian women are from UW Flexible Option Subscription periods (of which there are 12 annually - a new subscription period starts on the Tuesday in the second week of every calendar month) that fell outside the Fall Enrollment Survey time frame. | | | |
| Perform Edits | The 12-month unduplicated count is outside the expected range of between 40 and 92 when compared to the prior year value reported for this student level. Please correct your data or explain the change in enrollment. (Error #9304) | Explanation | Yes | |
| Reason | After UW System restructured, the Bachelor of Science in Business Administration program (BSBA) was moved from UW Extension (which no longer exists) to UW-Parkside. With this move, came the benefit of swift accreditation under UW Parkside's already accredited status both as a university and in business programs (note - the BSBA program was unaccredited and working on that process when it was housed under UW Extension). As both a result of accreditation and aggressive marketing/recruiting (as well as increased retention efforts), the BSBA program has grown rapidly (and is now the leading program in terms of growth among all UW System Flexible Option programs). This explains the unduplicated headcount being larger than the expected range. | | | |
| Screen: Instructional Activity | | | | |
| Perform Edits | The institution-reported FTE entered on the Part B – Instructional Activity screen is significantly different from the value reported in the prior year. Please correct your data or explain the reason for this variance, detailing the method used to calculate the entered FTE. (Error #9859) | Explanation | Yes | |
