Fall Enrollment 2023-24

Institution: University of Wisconsin-Parkside (240374)   User ID: 55C0011

Overview

Fall Enrollment Overview

The Fall Enrollment component collects student enrollment counts by level of student, enrollment status, gender and race/ethnicity. In addition, first-time students' fall-to-fall retention rates and the student-to-faculty ratio are collected. Enrollment by age is required in odd-numbered years, and enrollment by residence of first-time undergraduates is required in even-numbered years.

Institutions operating on a traditional academic year calendar (semester, trimester, quarter, or 4-1-4) report Fall enrollment as of the institution's official fall reporting date or October 15. Institutions operating on a calendar that differs by program or that enrolls students on a continuous basis (referred to as program reporters) report Fall enrollment as students enrolled any time during the period August 1 and October 31.

Data reporting reminders:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior year reporting.
- Part B, Enrollment of students by age, is required this year.
- Part C, Residence of first-time degree/certificate-seeking undergraduates, is optional this year.
- For reporting students studying in consortium agreements, please refer to the Resource page at https://nces.ed.gov/ipeds/report-your-data/data-tip-sheet-reporting-data-consortium-institutions.

Changes in reporting:

The following changes were implemented for the 2023-24 data collection period:

- Rephrased "remedial education" terminology in survey materials to "developmental education," including Glossary terms
- Rephrased "dual enrolled students" terminology in survey materials to "high school students enrolled in college courses for credit"
- Revised survey materials related to Gender Unknown or Another Gender enrollment reporting in Part A, including non-reporting for small cell size
- Revised Part E Instructions to clarify that bachelor's degree completers by their second fall term among the first-time bachelor's degree-seeking student cohort should be considered retained
- Added FAQ regarding including incarcerated students in for-credit enrollment reporting
- Added FAQ regarding determining students' full- and part-time status
- Revised FAQ regarding enrollment reporting for degree-seeking students who were previously enrolled as non-degree-seeking
- Revised FAQ with an additional note about verification of F-1 visa status for undocumented and DACA students
- Removed reference to Common Data Set methodology in Instructions regarding student-to-faculty ratio
- Revised FAQ regarding experimental site participants

Part A - Fall Enrollment- Gender Unknown or Another Gender than Provided Categories

Part A - Fall Enrollment - Gender Unknown or another gender than Provided Categories

- The 'gender unknown' category is to report students for whom the institution does not know a gender.
- Institutions should not ask students that do not select a binary gender to allocate themselves to a binary gender category; it is up to the institution to allocate unknown students and students that indicate another gender into the binary categories throughout the forms where required. One commonly used method to allocate students is to use the known portion of men to women.

Is your institution able to report **another gender** for the 2023-24 data collection?
If you indicate 'No, my institution does not collect data on another gender,' leave the cells in the rows for **'Another gender'** blank (i.e., do not report 0). If you indicate 'No, some cells will have a value of less than 5 students,' your institution collects data on another gender, but some cells have a value of less than 5 students, do not report the data and leave the cells in the rows for 'Another gender' blank. If you indicate 'Yes', but no students identified as another gender, please enter '0'.

Undergraduate students:
- ○ Yes
- ◉ No, some cells will have a value of less than 5 students (do not report)
- ○ No, my institution does not collect data on another gender

Graduate students:
- ○ Yes
- ◉ No, some cells will have a value of less than 5 students (do not report)
- ○ No, my institution does not collect data on another gender

Of the total students reported, how many students did you allocate to a binary gender category (Men/Women) because their gender was unknown or another gender than the provided categories?

Part E - First-time Bachelor's Cohort Retention Rates (Full-time)

Retention Rates - Full-time, First-time Bachelor's Seeking Cohort from Fall 2022

Academic reporters determine the cohort and retention as of the institution's official fall reporting date or as of October 15. Program reporters determine the cohort with enrollment any time between August 1 and October 31, 2022 and retention based on August 1, 2023.

The retention rate is calculated by the system after clicking "Save" on the screen. Exclusions are subtracted from and inclusions are added to the original cohort and the resulting adjusted cohort is used for calculating the retention rate.

Retention Data Reporting Reminders:
- Include only **full-time, first-time bachelor's-seeking** students in this cohort.
- Determine the full-time cohort using Fall 2022 status (e.g., if a student was full-time in Fall 2022, report them in the full-time cohort regardless of their Fall 2023 status).
- If there are no students to report in the cohort, enter zero. Do not leave the field blank.
- Report in the exclusions box (line E2a) the number of students from the cohort who left the institution for any of the following reasons: died or were totally and permanently disabled; to serve in the armed forces (including those called to active duty); to serve with a foreign aid service of the Federal Government (e.g., Peace Corps); or to serve on official church missions.
- Report in the inclusion box (line E2b) first-time bachelor's-seeking study abroad students who were excluded from the first-time cohort (line E1) but who have re-enrolled at the institution their second year.

Part E - First-time Bachelor's Cohort Retention Rates (Part-time)

<u>**Retention Rates**</u> **- Part-time, First-time Bachelor's Seeking Cohort from Fall 2022**

Academic reporters determine the cohort and retention as of the institution's official fall reporting date or as of October 15. Program reporters determine the cohort with enrollment any time between August 1 and October 31, 2022 and retention based on August 1, 2023.

The retention rate is calculated by the system after clicking "Save" on the screen. Exclusions are subtracted from the original cohort and the resulting adjusted cohort is used for calculating the retention rate.

Retention Data Reporting Reminders:
- Include only **part-time, first-time bachelor's-seeking** students in this cohort.
- Determine part-time using Fall 2022 attendance status (e.g., if a student was part-time in Fall 2022, report them in the part-time cohort regardless of their Fall 2023 status).
- If there are no students to report in the cohort, enter zero. Do not leave the field blank.
- Report in the exclusions box (line E7a) the number of students from the cohort who left the institution for any of the following reasons: died or were totally and permanently disabled; to serve in the armed forces (including those called to active duty); to serve with a foreign aid service of the Federal Government (e.g., Peace Corps); or to serve on official church missions.
- Report in the inclusion box (line E7b) first-time bachelor's-seeking <u>study abroad</u> students who were excluded from the first-time cohort (line E6) but who have re-enrolled at the institution their second year.

Reason	Because we have a small number in our part-time cohort, one or two students' difference makes a big difference in percentage.
