What do these maps tell us about the student experience?

- What HIPs are required? E.g., as a general education or major requirement
- When are students most likely to engage in HIPs?
- In what HIPs are students most likely to engage?
- How do students engage in each HIP? E.g., course, co-curricular experience, as an independent project
- How can this framework support equity in student participation and student success?
- Do all groups of student engage in HIPs?
