

April Strom is mathematics faculty at Chandler-Gilbert Community College in Arizona and has taught for over 20 years. She is currently a member of the U.S. National Commission on Mathematics Instruction. In addition, she is the Vice President of the Mathematical Association of America (MAA) and Southwest Vice President for the American Mathematical Association of Two-Year Colleges (AMATYC). She has served as PI and Co-PI on various NSF-funded projects focused on both research in mathematics education and professional development of K-14 instructors. She co-led the writing of the Classroom Practices chapter of the MAA Instructional Practices Guide and served on the steering committee for the AMATYC IMPACT guide. She received her Ph.D. in Curriculum & Instruction (emphasis in Mathematics Education) from Arizona State University, and she holds M.A. and B.A. degrees in Mathematics from Texas Tech University.
