- Opportunity Grants Programs
- WPP grants leverage \$258 million in additional funding

Community Partnerships

- Spreading the Wisconsin Idea
 - UW faculty and communities sharing expertise to respond to local needs
 - Academic partners from UW System Schools and UW-Extension
 - Serving communities from Oneida and Polk counties in the north to Grant, Green and Rock counties in the south
- 136 community organizations and 124 academic partners established partnerships since 2004

Stepping Safely

Community Partners: Kenosha County, Greater Wisconsin Agency on Aging Resources, Wisconsin Institute for Healthy Aging

Academic Partner: Jane Mahoney, MD, Medicine

Goal: Reduce unintentional fall injuries among Wisconsin's older adults

Education

- Integrating medicine and public health into the curriculum at the UW School of Medicine and Public Health
- Initiating a master in public health degree
- Increasing number of physicians practicing in rural Wisconsin
- Training current community leaders and future public health professionals
- Establishing new Preventive Medicine Residency

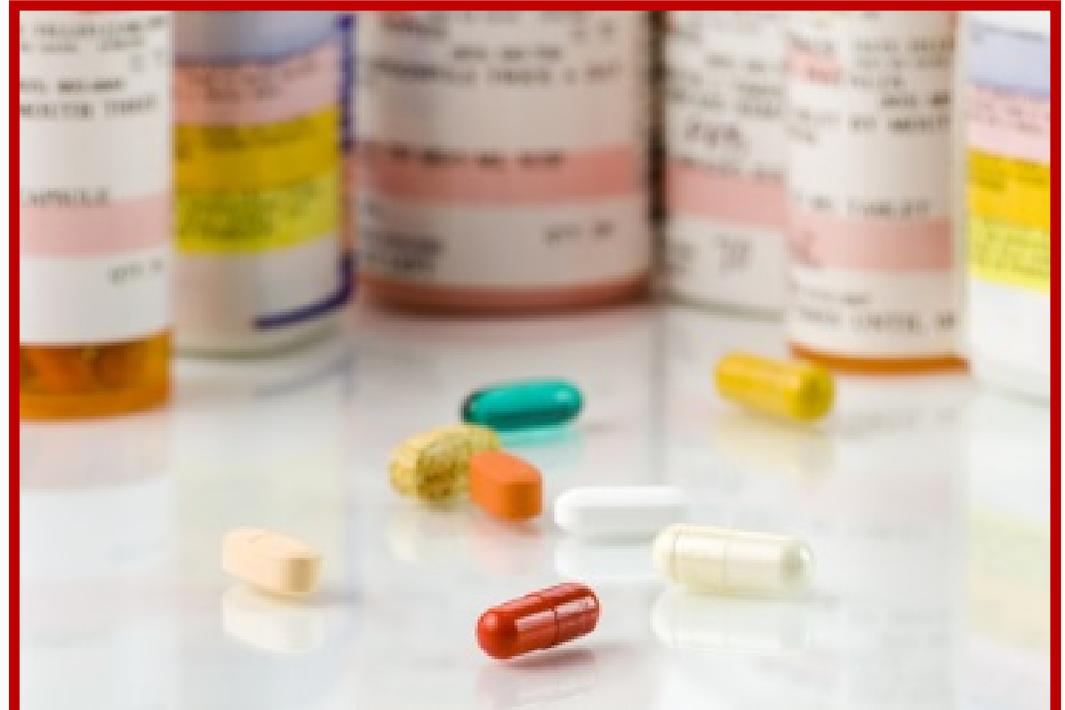

Transforming Medical Education

Principal Investigator: Christine Seibert, MD, Medicine

Goal: Infuse public health into overall medical student curriculum

Research

- Advancing new approaches to health and health care issues in response to emerging needs
- Supporting the integration of basic, clinical, and population health research
- Transferring research findings into Wisconsin communities through dissemination and implementation
- Surveying Wisconsin's residents to identify health issues

Wisconsin Infectious Disease Drug Discovery

Principal Investigator: Bruce Klein, MD,
Pediatrics

Goal: Developing methods for screening chemical compounds for antimicrobial activity.

Wisconsin Obesity Prevention Initiative

- \$8.6 million recently awarded launching the initiative—focused on children
- Build statewide alignment across diverse partners working in government, advocacy, research, communities, the corporate sector, and non-profit agencies to collectively address obesity
- Initiating multi-setting community interventions in Marathon and Menominee counties
- Developing statewide marketing and messaging to heighten public awareness
- Creating comprehensive statewide childhood obesity surveillance system

Fit Families-Fit Communities

Community Partner: Portage County CAN

Academic Partner: Annie Wetter, PhD, UW-Stevens Point

Goal: Reduce obesity by promoting community strategies for improving lifelong physical activity for residents of Portage County

Lifecourse Initiative for Healthy Families

LIHF | Lifecourse Initiative
for Healthy Families

LIHF seeks to reduce infant mortality
among African American families.
