<sup>1</sup> "Zero Dollar" preventive drugs identified by the Affordable Care Act (ACA) are paid for by the plan even if the deductible has not been met.  
<sup>2</sup> "First Dollar" preventive drugs identified by the ACA are subject to copay/coinsurance even if the deductible has not been met. After the deductible is met, the member is still responsible for the copay/coinsurance up to the OOPL.  
<sup>2</sup> Family OOPLs for the Health Plan and Access Health Plan are embedded. This means that an individual within a family meets an individual OOPL. Family OOPLs for the HDHP and Access HDHP are not embedded. This means that an individual will continue to pay until the family OOPL is met.
