

GLAZIER TITLE DEFINITION

I. DEFINITIONS

GLAZIER

This is journey level glazier work. Employees install glass in windows, skylights, and display cases, or on surfaces such as building fronts, interior walls, ceilings, and tabletops. Employees cut, fit and install window glass, plate glass and mirrors, glass and aluminum doors and their frames, and any other related duties as may be assigned or necessary. In addition, positions in this classification may also direct and instruct apprentices, helpers and other assistants.

Positions are assigned any combination of the following duties:

- Assemble, fit and attach metal-framed glass enclosures for showers or bathtubs to framing around bath enclosure.
- Measure mirror and dimensions of area to be covered and determine plumb of walls or ceilings, using plumb-line and level.
- Attach mounting strips and moldings to surface and apply mastic cement, putty, or screws to secure mirrors into position.
- Cover mirrors with protective material to prevent damage.
- Drive truck to installation site and unload mirrors, equipment, and tools.
- Move furniture to clear work site and cover floors and furnishings with drop cloths.
- Measure, cut, fit, and press anti-glare adhesive film to glass or spray glass with tinting solution to prevent light glare.
- Fasten glass panes into wood sash and spread and smooth putty around edge of pane with knife to seal joints.
- Install pre-assembled framework for windows or doors designed to be fitted with glass panels, including stained glass windows, using hand tools.
- Cut, fit and install window glass, plate glass, mirrors and glass substitutes using vinyl or neoprene set, gasket set, tape glazing or dry glazing and other types of sealants.
- Install glass or aluminum doors, sliding doors, door frames, and door closers and operators.
- Replace broken glass and repair window and door frames.
- Install window and door frame tubing, and window sashes and jambs and do metal fabrication where necessary.
- Lay out different aspects of the job from blue prints and shop drawings.
- Install all types of aluminum, bronze, or stainless steel materials used for facing and/or framing of building fronts and displays.
- Keep records and make reports.
- Direct and instruct apprentices, helpers and assistants in the work of the trade.

II. QUALIFICATIONS

Glazier: Graduation from high school or attainment of age 18 and completion of an apprenticeship approved by the Department of Workforce Development as an glazier. Formal recognition of status by the appropriate international or local trade organization or some type of similar formal validation of journeyman status may also be accepted. Persons having informal training and experience equivalent to the formal apprenticeship and journeyman status may also be accepted upon submission of documented proof of such training and experience.

Equivalent training and experience for this craft: Evidence of at least 5,840 hours on-the-job training plus 400 hours paid instruction, including safety procedures. Such evidence may include letters or statements from past customers/clients and/or employers.
