HEALTH PHYSICIST

I. DEFINITIONS

HEALTH PHYSICIST

Positions work under close progressing to limited supervision. Principles and practices have been learned prior to entrance into this title series. The emphasis is in developing skills in working with and/or understanding the program, state systems, user group(s) and the mechanics of the program; and developing an understanding and applying the statutes, rules, regulations, administrative code and standards required in the program area.

HEALTH PHYSICIST - SENIOR

Senior level positions function as the lead Radiation Safety staff consultant for the University's Safety Department; independently perform more complex tests and analyses; and have more professional latitude in prioritizing work assignments, deciding appropriate tests to be performed, analyzing test results, and making recommendations. At this level, positions are generally involved in some combination of the following activities: performing complex analytical tests in both routine and non-routine and complex situations involving ionizing radiation, analyzing; planning and conducting surveys of the most complex radiation installations; assisting lower-level Health Physicists in the selection and performance of tests and procedures; directing the abatement of a particular radiation health or safety hazard or problem; providing assistance to other scientists in the same program area; assisting the supervisor in the maintenance of supplies, equipment and instruments, and in the "day-to-day" function of the particular program; providing peer review of test results for accuracy and completeness; and functioning as a liaison with other governmental agencies, the private sector, and the public. These positions may also conduct special projects or research; and may be involved in training students, lower level Health Physicists, and/or technical staff. Positions function independently under general supervision.

II. QUALIFICATIONS

The qualifications required for these positions will be determined at the time of recruitment.
