

**Questions and Answers**

Below are questions received from potential Proposers:

**Q3. What commercial (telecommunications) carriers are residents within the impacted area? Are new carriers being considered?**

A3. Due to the early state of this project, these are questions UW hopes to work through in the first phase of this project.

**Q4. Is the approximate CHTC cabinet power density, both current and future growth, available?**

A4. UW can not provide the cabinet power density in time for the bid SOQ submission deadline.

**Q5. Can you please confirm if the title page and cover letter will affect the total page count of 35 pages?**

A5. All documents submitted count toward the 35 pages, including title pages, cover letters, etc.
