#### BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

#### I. All Regents

Via WebEx Videoconference

Thursday, June 4, 2020 12:45 p.m.

- 1. Calling of the Roll
- 2. Declaration of Conflicts
- 3. Introduction of newly-appointed Regents
- 4. Other introductions
- 5. Approval of the record of the April 2, 2020 meeting of the UW System Board of Regents, the April 16, 2020 meeting of the Executive Committee, and the May 7, 2020 special meeting of the UW System Board of Regents
- 6. Report of the Board President
  - A. Report of the Wisconsin Technical College System Board
  - B. Graduate Outcomes
  - C. Blueprint for the University of Wisconsin System Beyond COVID-19
  - D. Update on the UW-River Falls and UW-Stevens Point chancellor search processes
  - E. Update on the UW System President search process
- 7. Report of the System President
  - A. COVID-19 Update
  - B. Legislative Relations related to COVID-19
  - C. Update on Federal Title IX Regulations
- 8. Report and approval of actions taken by the Audit Committee
- 9. Report and approval of actions taken by the Business & Finance Committee
- 10. Report and approval of actions taken by the Education Committee
- 11. Report and approval of actions taken by the Capital Planning & Budget Committee
- 12. Report and approval of actions taken by the Research, Economic Development & Innovation Committee
- 13. Presentation, Discussion and Approval: UW System 2020-21 Annual Operating Budget and Tuition and Fee Schedules

- 14. Presentation and Discussion: Student Behavioral Health—Update on Counseling Efforts During COVID-19 and the UW Student Behavioral Health Initiative
- 15. Presentation and Discussion: Transferology—UW System's Seamless Transfer Solution Implementation
- 16. Extension of Authority to Temporarily Waive Provisions of Regent Policy Documents
- 17. Review and approval of the Board of Regents regular meeting schedule for 2021
- 18. Resolution of Appreciation for Chancellor Dean Van Galen's service to the UW System
- 19. Annual election of officers of the Board of Regents
- 20. Regent communications, petitions, and memorials
- 21. Closed Session Move into closed session to:
  - A. Consider a student request for review of a UW-Madison disciplinary decision, as permitted by s. 19.85(1)(a), (f), and (g), Wis. Stats.; and
  - B. Consider student requests for review of UW-Milwaukee decisions, as permitted by s. 19.85(1)(a), (f), and (g), Wis. Stats.

The Board may reconvene in open session regarding matters taken up in the closed session, including voting, where applicable.

Thursday, June 4, 2020

### APPROVAL OF THE 2020-21 UNIVERSITY OF WISCONSIN ANNUAL OPERATING BUDGET

#### **REQUESTED ACTION**

Adoption of Resolution 13. Approval of the 2020-21 Annual Operating Budget

**Resolution 13.** That, upon the recommendation of the President of the University of Wisconsin System, the 2020-21 operating budget be approved, including segregated fees, room and board, textbook rental, and estimated expenditures from program revenue fund balances as attached in the document, "2020-21 Operating Budget and Fee Schedules, June 2020".

#### SUMMARY

The Annual Operating Budget for the University of Wisconsin System is based upon the State's 2019-21 biennial budget, signed by the Governor on July 3, 2019.

The budget requires a continued freeze of resident undergraduate tuition at the 2012-13 levels for the upcoming 2020-21 fiscal year, including differential tuition. The freeze was first included as part of Wisconsin Act 20, the state's 2013-15 biennial budget, after the Legislature and Governor expressed concerns about the size of balances. Fiscal year 2020-21 will be the eighth year of a required resident undergraduate tuition freeze.

The University of Wisconsin System institutional budgets have been prepared and are being presented using metrics and assumptions for enrollment, revenues and expenditures developed prior to the COVID-19 pandemic. It is anticipated that the 2020-21 Annual Operating Budget will need to be revisited as more becomes known about the effects of COVID-19 on university operations in the fall and spring semesters.

#### Presenter

• Sean Nelson, Vice President for Finance

Individual Campus Data	23.
Appendix A. Adjustments in GPR Funding	45.
Appendix B. Room and Board Rate Detail Tables	48.
Appendix C. COVID-19 Matrix	55.

#### SUMMARY AND OVERVIEW

2019 Wisconsin Act 9, the state's 2019-21 biennial budget is the base upon which the University of Wisconsin System (UW System) builds its 2020-21 annual budget. The biennial budget was passed by the legislature and signed into law by the Governor in 2019.

The budget requires a continued freeze of resident undergraduate tuition at the 2012-13 levels for the upcoming 2020-21 fiscal year, including differential tuition. The freeze was first included as part of Wisconsin Act. 20, the state's 2013-15 biennial budget, after the Legislature and Governor expressed concerns about the size of balances. Fiscal year 2020-21 will be the eighth year of a required resident undergraduate tuition freeze.

Over the past eight years, tuition balances in unrestricted funds have decreased significantly, and are estimated to be \$168.8 million at the end of fiscal year 2020. This estimate is a decrease of over \$380 million since the tuition freeze was introduced. At the end of fiscal year 2020, fund balances from all sources are projected to have declined by over \$410 million over the past eight years. Estimates show balances being reduced from \$1.06 billion to \$650 million at the end of 2019-20. System wide balances by funding sources are shown throughout the budget document.

#### Financial Impact of COVID-19

Due to the timing of the FY21 annual budget development and the quickly unfolding situation related to the pandemic throughout the months of March and April, the UW System institutional budgets have been prepared using metrics and assumptions for enrollments, revenues, and expenditures as contemplated prior to the onset of COVID-19. As additional information becomes known and the corresponding impacts to university operations are assessed, the Board of Regents will be apprised regarding substantive changes to the FY21 annual budget. Particular emphasis for follow-up may include updates on the following:

- State of Wisconsin tax revenue projections and the impact to the UW System's General Purpose Revenue (GPR) allocation
- Institutional changes for both revenue and expense, inclusive of updates on staffing assumptions
- Revisions to segregated fee schedule (if limited activities and services available on campus due to COVID-19)
- Estimated balances and cash flow projections
- Capacity to borrow for operational shortfalls
- Status of additional Federal Aid

Also included as a reference in Appendix C, is a revised summary table of the financial impact of COVID-19 as initially shared with the Board of Regents at the May 5, 2020 meeting. This document, now revised to include an additional FY20 state GPR reduction of \$3.8M, highlights the collective financial exposure of the UW institutions from March of 2020 through the Summer Semester of 2020.

#### **Campus Specific Information Pages**

Additional insight is provided into individual UW System institutional budgets by presenting a single informational page for each institution. Information within these campus information pages includes: enrollment trends over the past five years by both head count and full-time equivalent students, a view of expenditure budgets by fund group compared with the prior year, and specific campus information regarding segregated fees, room and board, and textbook rental.

Branch campuses (former UW Colleges) and former UW-Extension units have been budgeted using the structure approved by the Board in November 2017. In the 2020-21 budget, these budgets have been integrated with their receiving institutions and are only shown separately in the individual campus pages to illustrate enrollment trends and show the auxiliary rates, which differ from receiving institution rates.

#### Highlights

The UW System's 2020-21 Annual Budget includes the following:

- Resident undergraduate tuition is be frozen for the eighth consecutive year.
  - Enrollment increases and professional school and non-resident tuition at UW-Madison increase while many comprehensives have reduced their tuition expenditure budgets to address enrollment declines, these changes result in an overall \$33 million increase to the tuition expenditure budget.
- The total 2020-21 expenditure budget (excluding the use of tuition balances) will increase by approximately \$164 million.
  - The majority of this increase, \$153.1million, comes from Gifts, Grants, and Contracts; a restricted source of funding which is very dependent upon research and philanthropic activities.
- The State's 2019-21 biennial budget provides for a \$27.2 million (2.9%) increase in the UW System's GPR funding, excluding debt service.
- Including tuition, segregated fees, room and board and textbook rental, the typical cost for a resident student living on campus in 2020-21 will increase by 0.9% for students at four-year campuses and 0.5% for students at two-year campuses. This increase is more than 1.5% below the estimated CPI of 2.5%.
- Segregated fee and room and board increases combined average \$154 (1.7%) at four-year campuses and \$32 (2.4%) at two-year campuses.

#### ALL FUNDS BUDGET OVERVIEW

The UW System budget includes expenses and revenues from a number of different fund sources. In order to provide more concise analysis of budgets, the funds are reported by seven fund groups.

The fund groups included in the annual budget are defined below:

#### • GPR/Tuition Funds

- o state resources
- o tuition
- extension credit fees

#### • Auxiliary Operations

- self-supporting programs whose primary purpose is to provide services to students, staff, and occasionally the public
- examples include residence halls, food service, unions, student organizations, parking, etc.

#### • General Program Operations

- self-supporting operations
- examples include camps and clinics, print and copy shops, dairy sales, etc.

#### • Federal Indirect Cost Reimbursement

• reimbursements received from the federal government for various costs incurred in administering federal grant programs

#### • Gifts, Grants and Contracts

- use of funds is restricted
- private or organizational gifts
- o federal and nonfederal research grants
- o contracts that are provided for specific purposes
- Federal Financial Aid
  - o federal student aid that is passed through to UW students
- Other
  - o debt service payments for non-academic buildings
  - o non-credit Extension programming

The tables and narratives on the following pages provide information on the total 2020-21 UW System budget, as well as information by source of funds, including the dollar and percent change.

 $* {\sf Represents the average cost for the majority of students. Does not include the cost of purchasing textbooks.}$ 

\*\*UW-Stout is the only institution to charge a per-credit tuition rate. The full-time tuition rate shown is the per-credit rate multiplied by 15 credits per semester. The actual tuition increase paid by a student will vary based on the number of credits taken.

#### 2020-21 GPR/TUITION FUNDS

The table on the following page shows the detailed allocation changes in GPR/Tuition by institution from 2019-20 to 2020-21. Appendix A provides details regarding the methodology used for the GPR/Tuition funding adjustments.

Highlights of these changes include planned increases to GPR for pay plan and the Dairy Innovation Hub.

- \$6.8 million held in the Joint Committee on Finance supplemental appropriation for the Dairy Innovation Hub. A plan for the use of this funding was submitted by the UW System and approved by the Joint Committee on Finance, leading to the release of the funding to UW System.
- The cost of six months of the 2% pay plan, which was effective January 1, 2020. This amount is approximately \$10 million.
- The cost of the first six months of the 2% pay plan, effective January 1, 2021. This amount is also approximately \$10 million.

There is also an overall increase to budget authority for tuition and differentials. This increase totals \$33.4 million across the UW System. There is a shift upward for UW-Madison where increases in enrollment and professional and non-resident tuition, as previously approved by the Board of Regents, result in an increase of \$49 million. Eight UW System campuses reduced their tuition authority in an effort to right-size expenditures with revenues.

\* Other includes: Debt Service, Lawton and AOP adjustments, Lease and Rental payments, and Shared Services

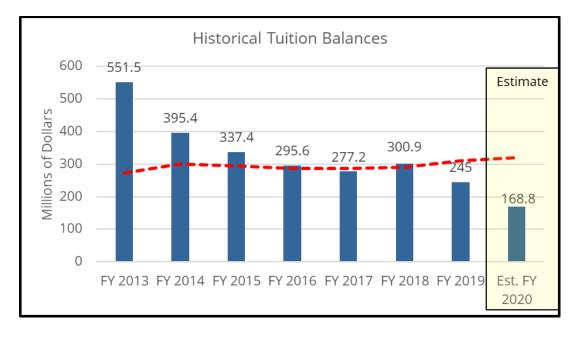

\*\*A group was brought together to redistribute utility funding. Base funds were distributed to institutions based on average actuals.

#### Fund Balance Trend - Tuition

Tuition balances are projected to have decreased across the UW System over the past eight years by over \$380 million at the end of 2019-20. Institutions use tuition balances to not only prepare for unknown contingencies but also allocate resources for strategic purposes that support the institution's mission. Historically, they have been an important buffer for managing enrollment volatility and have also supported centrally funded projects and services such as expanding technology capacity and accessibility, starting new programs, financial aid and scholarships, and student success initiatives.

Campuses indicated that a primary use of balances going into 2020-21 is likely to be offsetting declines in enrollment and other costs due to COVID-19.

The chart below shows the trend in tuition balances over the past eight years for the UW System. The Board recognizes that there is a need to accumulate balances in order to meet strategic needs as well as guard against extraordinary events. To this end, a Regent Policy Document 21-6 identifies a 12% threshold for reporting balances, which is represented in the table below as the red dotted line.

#### 2020-21 AUXILIARY FUNDS

Auxiliary operations are self-supporting programs whose primary purpose is to provide services to students (e.g., residence halls, student centers/unions, student health clinics, bookstores) and whose secondary purpose is to provide services to staff, and occasionally the general public (e.g., parking, printing and duplicating services). User fees, segregated fees, merchandise sales, and interest earnings generate revenues for auxiliary operations, and the operations are allowed to maintain reserves with funds to smooth rate changes, for new facilities, remodeling/additions, deferred maintenance, high cost equipment, debt service obligations, and to ensure adequate funding for current operations. Students participate in the programming and budgeting process through institutional Segregated University Fee Allocation Committees.

The 2020-21 Auxiliary expenditure budget is projected to decrease by \$70.2 million or - 8.31% from the prior year to \$775.3 million. The decrease is primarily due to decreases in enrollment and debt service payments.

#### Segregated Fee and Room and Board Rates

For 2020-21 campuses were instructed that proposed rate changes should be limited to:

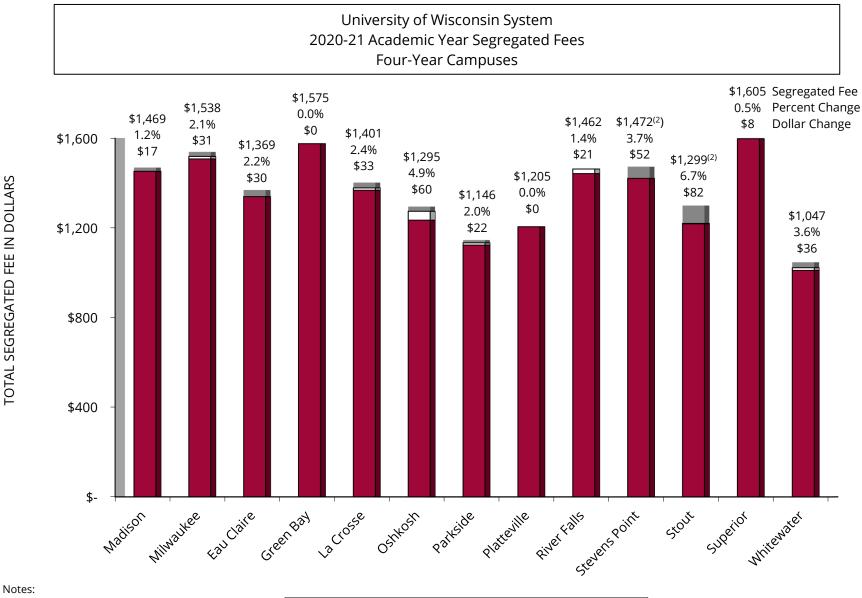

- Pay plan and associated fringe benefit increases for 2020-21
- Documented contractual increases
- Debt service
- Enumerated capital projects
- Proposed student-initiated programming
- Student safety initiatives

As with 2019-20, in order to portray a clearer picture that more accurately reflects what families of students living on campus are actually paying, a model is being utilized that calculates rates based on the average cost of room and board paid by the majority of students. The rates shown in the budget tables and charts reflect the room and board rates paid by the majority of students. However, the Board is being asked to act on all room and board rates which are shown in Appendix B.

As with the rest of the 2020-21 annual operating budget, budgets developed for segregated fees, room and board, and textbook rental were developed before COVID-19 impacted UW System institutions and as a result the proposed rates include assumptions based on estimated enrollments and costs as of late 2019. It is anticipated that rates may need to be revisited as 2020-21 progresses. This may result in changes to the segregated fee, room

and board and textbook rental rates; revisions will be brought to the Board of Regents for approval.

The charts on the following pages include comparative information on segregated fee and room and board rates by institution. Specific campus information regarding segregated fees, room and board, and textbook rental is shown on the individual campus pages.

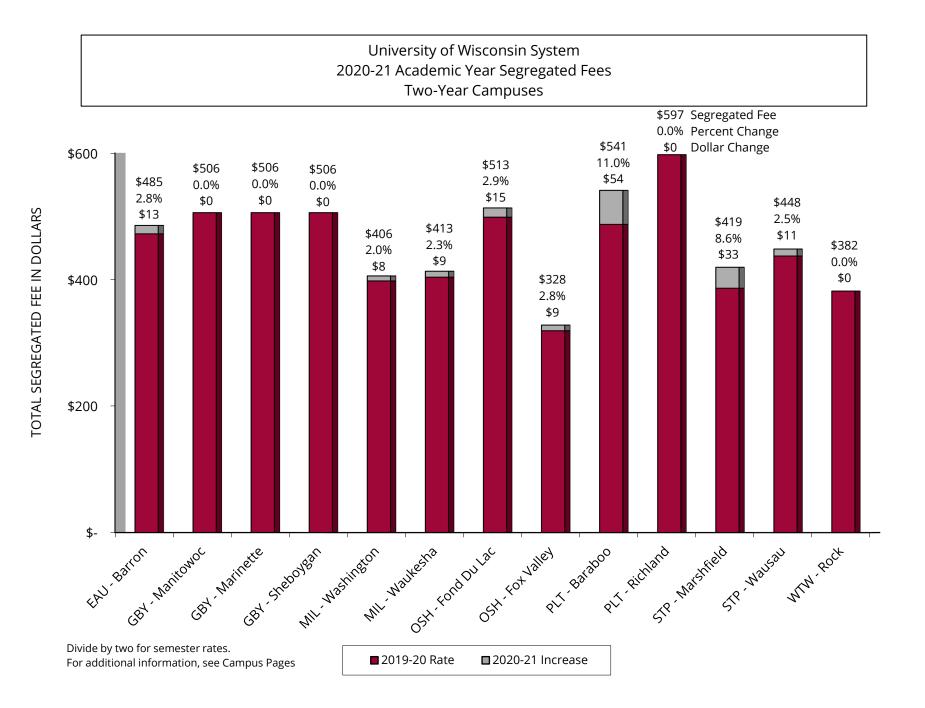

1. Divide by 2 for semester rates.

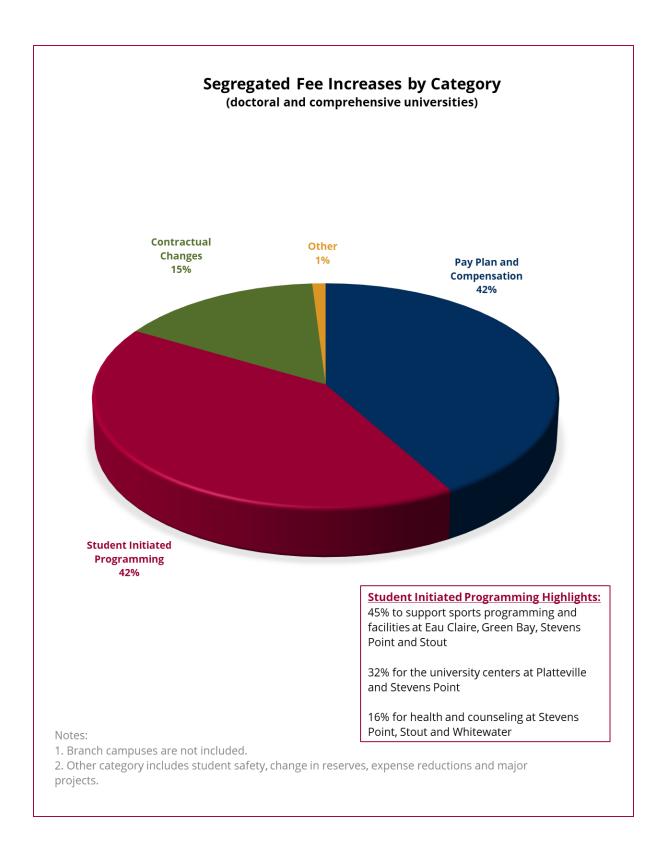

TOTAL SEGREGATED FEE IN DOLLARS

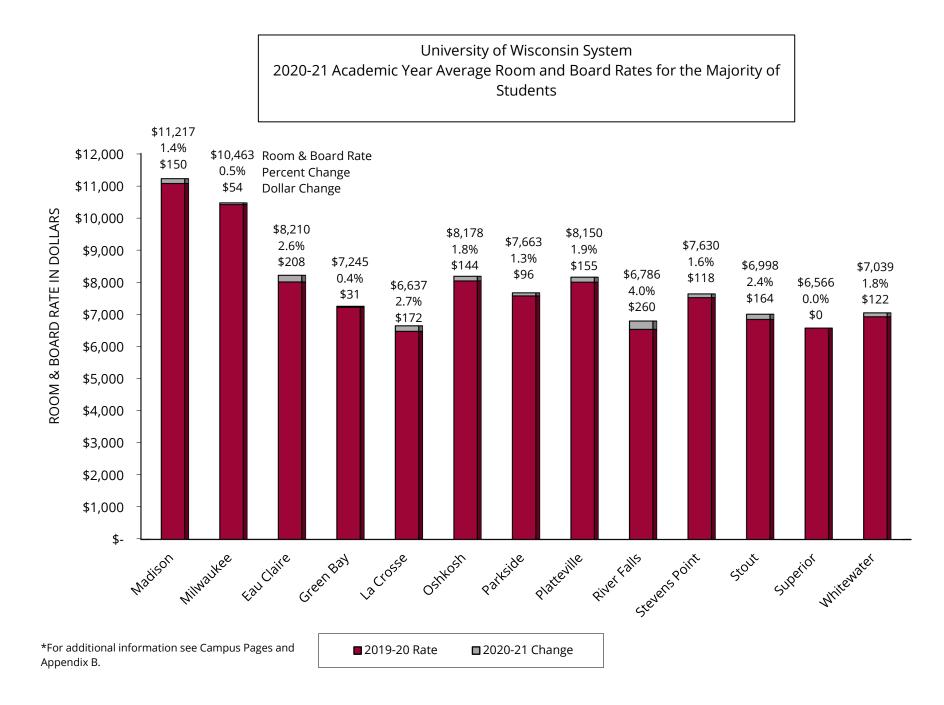

2. Offset by text rental/e-text fee decreases.

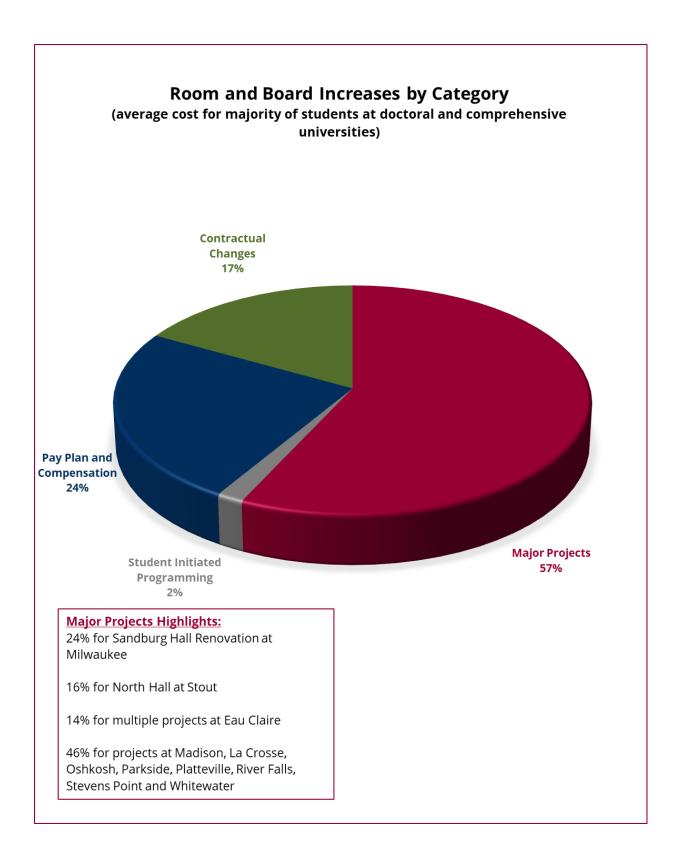

3. For additional information, see Campus Pages.

2019-20 Rate □ Major Projects Previously Approved by the Board Operations Change

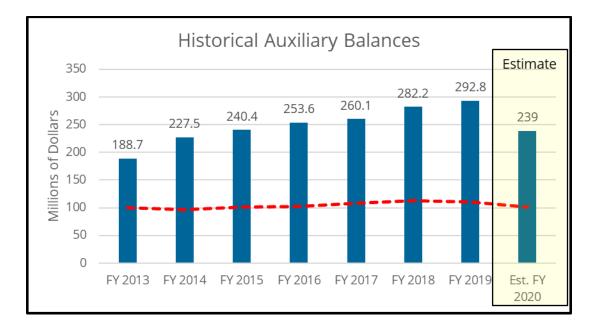

#### **Fund Balance Trends - Auxiliaries**

Over the past seven years, auxiliary balances have increased across the UW System. Many of these increases have been due to large capital projects and/or renovation projects such as residence halls, dining halls, and student centers. The balances are used to fund items such as cash payments toward building projects, future debt service payments, and large purchases towards auxiliary operations. However, at the end of 2019-20, the balance is estimated to decline by approximately \$54 million. This would be the first decline in auxiliary balances since 2012-13.

COVID-19 has had a direct impact to the auxiliary operations of each campus. Institutions have refunded millions of dollars to students as in-person instruction ceased after spring break. In addition to refunds, costs such as utilities, debt service payments, and capital projects already in progress continue, resulting in a reduction in the projected balance at the end of 2019-20.

The red dotted line in the chart below represents the reporting threshold for balances, per Regent Policy Document 21-6.

#### 2020-21 ADDITIONAL FUNDING SOURCES: General Program Operations, Federal Indirect Cost Reimbursement, Gifts, Grants and Contracts, Federal Financial Aid and Other

These remaining fund groups represent the balance of the UW System Budget, or about \$3 billion dollars. Between 2019-20 and 2020-21 these expenditure budgets in total have increased \$173.9 million or 6.1%.

Information on these additional funding sources is shown on the following three pages.

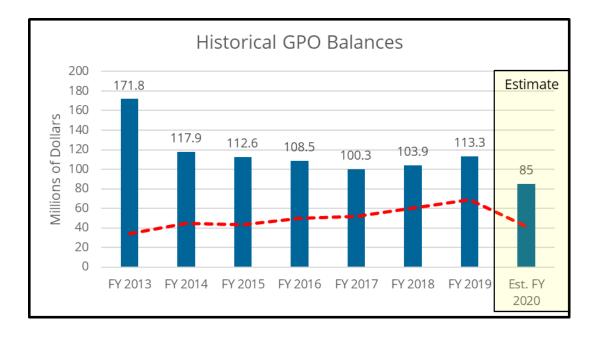

**General Purpose Operations** - Is made up of self-supporting operations such as print and copy shops, dairy sales, camps and conferences, etc. The 2020-21 General Program Operations expenditure budget will increase by \$53.8 million dollars or 15.6% to \$398.4 million. The increase to General Purpose Operations is mainly at UW-Madison. The budget reflects planned building activity Facilities Planning and Management had been projecting prior to COVID-19. It is unknown at this time how much of this activity will proceed during 2020-21.

#### Fund Balance Trend – General Purpose Operations

Fund balances in General Purpose Operations have been trending downward for several years. The projected decline to an estimated \$85 million is the first year these balances have dropped below \$100 million.

Balances in this category generally reside in many of small departments and are often used to support that specific operation. Often these departments provide a good or a service to the general public. Some examples of these operations are the World Class Instructional Design and Assessment Forum, Babcock Dairy, and the Pre-School Lab at UW-Madison. It is anticipated that with the cancellation of campus camps, clinics, and conferences due to COVID-19, the balances within this fund source will be severely impacted during 2020-21.

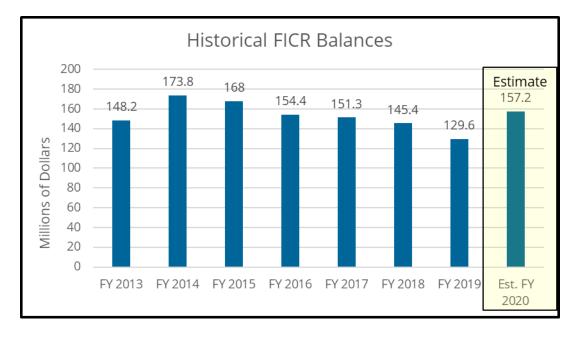

The red dotted line in the chart on below represents the reporting threshold for balances, per Regent Policy Document 21-6.

**Federal Indirect Cost Reimbursement** – Reimbursements are received from the federal government for costs incurred in administering federal grant programs. The Federal Indirect Cost Reimbursement expenditure budget increases by \$2.1 million dollars or 1.27% to \$170 million in 2020-21.

#### Fund Balance Trend – Federal Indirect Cost Reimbursement

The use of this fund source is not restricted, and balances are often used to support research infrastructure and provide support in the event of delays or slow downs in grant funding. Research activity at UW-Madison was strong for the first nine-months of 2019-20 which resulted in an increase in estimated end of year balances.

<u>**Gifts, Grants, and Contracts</u>** - These funds are typically used only for the purposes specified by the grantor or donor, and therefore are considered restricted. Gifts, Grants, and Contracts expenditure budget increases by \$153 million dollars or 12.77% to \$1.35 billion in 2020-21. This group contains several different types of funding.</u>

- Private or organizational gifts
- Federal and nonfederal research grants
- Contracts that are provided for specific purposes

The budget as submitted with pre-COVID-19 assumptions included a large increase in gift and grant activity at UW-Madison. This funding source could see significant decreases due to lingering economic effects of COVID-19 that continue into 2020-21.

**Federal Financial Aid and Other Funds** - Primarily financial aid, debt service for nonacademic buildings and non-credit Extension programs. Since these funds can typically only be used for specific purposes, they are often considered restricted. Federal Financial Aid and Other funds expenditure budget will decrease by \$35.1 million dollars or 6.6% to \$1.1 billion. Reductions in these areas are primarily due to decreased enrollments.

Due to the restricted nature of the uses of gifts, grants and contracts, federal financial aid and other fund sources, balances are not reported for these fund sources.

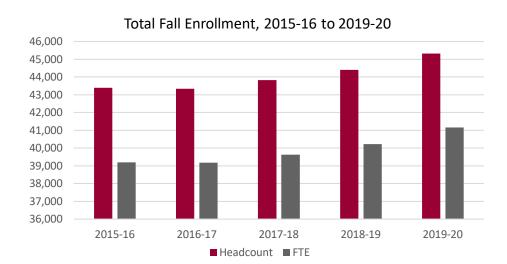

#### **Campus Specific Data**

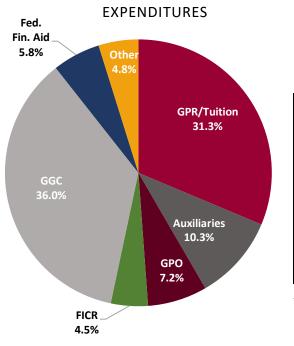

Each campus is also being shown independently. This allows for a concise snapshot of each four-year and two-year institution on one page. This data includes:

- Five-year history of total enrollment both by full-time equivalent and headcount.
- FY21 expenditures along with the change from the prior year. This is provided both in dollars and as a pie chart showing percent of total budget.
  - These charts combine the receiving and branch campus expenditure budgets.
  - GPR/Tuition budgets exclude fringe benefits
- FY21 segregated fees, room and board rates, and textbook rental including change from prior year and major drivers of the change.

Historically, campus budgets have not been broken down in this manner. Showing budgets in this way provides additional insight into each campus' unique situation.

### APPENDIX A ANNUAL DISTRIBUTION ADJUSTMENTS FOR CHANGES IN GPR/TUITION FUNDING

#### **1. TUITION TARGETS AND DIFFERENTIAL TUITION**

These allocations reflect institutional re-estimates in tuition authority for enrollment changes, existing differentials and self-supporting programs, and rate changes for graduate and non-resident students. These changes vary based upon institutional requests and are not the result of tuition rate increases for Wisconsin residents.

#### 2. 2019-20 COMPENSATION AND FRINGE BENEFITS ADJUSTMENTS in 2020-21

#### 2020-21 Portion of the January 1, 2020 2% Pay Plan

These allocations provide funding for the 2020-21 portion of the 2% pay plan increases approved by the Joint Committee on Employment Relations (JCOER), effective January 1, 2020. This allocation is based upon the October 2018 payroll.

#### 2020-21 Unfunded Pay Plan Costs

These items allocate reductions to reflect the unfunded pay plan costs related to the fee share of compensation and the associated fringe benefit adjustments in 2020-21 due to the tuition freeze. The allocations have been distributed based on each institution's share of the UW System's pay plan allocation.

#### Fringe Benefit Adjustments

The budget contains estimated increases in fringe benefits due to pay plan and anticipated health insurance increases.

#### 3. 2020-21 COMPENSATION AND FRINGE BENEFITS ADJUSTMENTS in 2020-21

#### 2020-21 Portion of the January 1, 2020 2% Pay Plan

These allocations provide funding for the 2020-21 portion of the 2% pay plan increases approved by the Joint Committee on Employment Relations (JCOER), effective January 1, 2021. This allocation is based upon the October 2018 payroll.

#### 2020-21 Unfunded Pay Plan Costs

These items allocate reductions to reflect the unfunded pay plan costs related to the fee share of compensation and the associated fringe benefit adjustments in 2020-21 due to the tuition freeze. The allocations have been distributed based on each institution's share of the UW System's pay plan allocation.

#### Fringe Benefit Adjustments

The budget contains estimated increases in fringe benefits due to pay plan and anticipated health insurance increases.

#### 4. DISTRIBUTION OF OUTCOMES BASED FUNDING

This item allocates out \$22.5 million in funding that was formerly held in the Joint Committee on Finance Supplemental appropriation. These funds were distributed based on the outcomes-based metrics developed by the Board of Regents and approved by the Joint Committee on Finance. This item allocates those funds to the institutional base budgets in 2020-21.

### 5. DAIRY INNOVATION HUB

These allocations distribute \$1 million of year one funding and \$6.8 million of year two funding previously held in the Joint Committee on Finance Supplemental appropriation.

# 6. OPEN ACCESS AND TRANSFER MISSION DISTRIBUTION TO RECEIVING INSTITUTIONS

With the restructuring of the 13 branch campuses of UW Colleges to seven receiving institutions, the Board of Regents set an expectation that the UW System maintain the open access and transfer mission of the branch campuses. To assist institutions with meeting these expectations and to address the unique and emergent issues of the HLC, UW System authorized the allocation of \$8 million in supplemental base General Purpose Revenue (GPR) to the receiving institutions as of July 1, 2020.

### 7. UTILITY FUNDING

This allocation distributes the four-year average of utility spending to each UW institution in base funding. Utility expenses in excess of the four-year average will be covered by UW System through a year-end transfer and expenses below the four-year average will be retained by the respective institution.

## 8. DEBT SERVICE

The budget decreased by \$231,500 to \$219,048,000 in 2020-21 for debt service. The allocation of debt service is prorated by institution based upon 2018-19 actual expenditures.

#### 9. FINANCIAL AID

# Lawton Undergraduate Minority Retention Grant/Advanced Opportunity Program (AOP)

The budget flat funds the Lawton Undergraduate Minority Retention Grant and the Advanced Opportunity Program in 2020-21. Funding for the AOP will be based on each institution's proportion of a three-year rolling average headcount of the statutorily-designated eligible population of minority/disadvantaged graduate students.

The Lawton Grant allocation is based on the three-year rolling average of Wisconsin resident undergraduates from eligible populations who are registered full-time.

#### Tuition Assistance Grant (TAG)

Tuition Assistance Grant funds are available to institutions to provide need-based aid to resident undergraduate students. These funds are allocated annually to institutions from the System-wide fund based on the most recent proportion of Pell Grants (dollars) for Wisconsin resident undergraduate students with EFCs below \$4,501 at each UW institution.

## STUDENT BEHAVIORAL HEALTH – UPDATE ON COUNSELING EFFORTS DURING COVID-19 AND THE UW STUDENT BEHAVIORAL HEALTH INITIATIVE

## **REQUESTED ACTION**

No action is required; this item is for information only.

## SUMMARY

Since the onset of COVID-19, counseling centers across the University of Wisconsin System have been working to maintain accessibility to counseling services for existing student clientele as well as provide access to new students seeking campus counseling services for the first time. The central approach adopted by the counseling centers was to move clinical, in-person services to phone and online services. In the early weeks of this transition, student demand for counseling services dipped as might be expected. After a period of intensive outreach to students, telehealth and virtual counselor training, and other critical adjustments, UW counseling centers are once again seeing a rise in the numbers of students making counseling appointments since social distancing was enacted. Recent reports from University of Wisconsin counseling center directors suggest that UW counselors are seeing approximately 70% to 75% of the student clientele they were this time last year, a considerably high rate of retention given the current circumstances.

This presentation is intended to provide the Board with a more thorough rendering of the efforts that University of Wisconsin System counseling centers are currently engaged in to address student behavioral health during COVID-19. Specific steps the University of Wisconsin System Administration has taken on behalf of its Student Behavioral Health Initiative will also be discussed.

### Presenter(s)

- Harry Anderson, Dean of Students at UW-Superior
- Dr. Artanya Wesley, Vice Chancellor for Student Affairs at UW-Whitewater

### BACKGROUND

The presentation will open with a brief summation of the many and varied efforts University of Wisconsin counseling centers have undertaken to ensure continued student accessibility to counseling and psychiatric services. There were considerable challenges to overcome including what could be done to expand psychiatric care, contending with staffing shortages, acquiring licenses to practice in states other than Wisconsin, and the provision of care and support for UW counselors themselves, among others.

The presentation will then focus on the impact COVID-19 has had on UW students' behavioral health overall. In addition to high levels of stress, anxiety, and depression many UW students have reported previously, the pandemic ushered in new concerns including increased stress and anxiety symptoms due to family financial problems, the loss of supports and structures needed to succeed socially and academically, and the difficulty of moving to online instruction.

The presentation will close with a brief discussion of what the "new normal" for counseling centers may look like in the fall as well as other steps that have been taken at the system level to help ensure the overall behavioral health of UW students.

## TRANSFEROLOGY—UW SYSTEM SEAMLESS TRANSFER SOLUTION IMPLEMENTATION

## **REQUESTED ACTION**

For information only.

## SUMMARY

One of the most important areas of work under the 2020*FWD* Strategic Framework is the Seamless Transfer initiative. The goal is to greatly simplify the student's journey through higher education regardless of where the student begins that journey. The 2020*FWD* Strategic Framework specifically notes the need to expand and improve the Transfer Information System (TIS). To facilitate the Transfer goal, there are three major areas the UW System has been working on: improving the articulation of courses and programs between institutions, enhancing the abilities of student services staff to support the transfer students, and providing information and tools to students so they can make informed and effective choices. The "Transferology" project, which is the implementation of a pair of cloud-based applications to replace TIS, will improve the transfer experience for students.

The project was begun in July 2019 and is on course to be fully implemented across Wisconsin public post-secondary institutions on July 1, 2020. At that time, it will supersede TIS and become the official state system for maintaining course equivalencies information as required by Wisconsin Statutes § 36.11(3cm).

### Presenters

UW System Associate Vice President Ben Passmore will introduce the topic and a video which will show Transferology in use. The video features Regent Olivia Woodmansee and Transfer Coordinator Julie Meyer from UW-Oshkosh. Following the video, a panel of transfer coordinators and the Transferology project team will answer Board members' questions and provide additional information and context. The panel will include:

- Julie Meyer, Transfer Coordinator, UW-Oshkosh
- Linda Young, Associate Director of Admissions, UW-Stout
- Chris Head, Assistant Director of Transfer Services, UW-Milwaukee

- Todd Bailey, Policy & Planning Analyst, Policy Research and Analysis, UWSA
- Andrea Smetana, Project Manager, Project Management Office, UWSA

### BACKGROUND

To replace the aging UW Transfer Information System (TIS), the UW System has purchased a Wisconsin Public Institution and Wisconsin Tribal Colleges CollegeSource subscription for two transfer technology solutions. Transferology (TFO) is a publicly accessible source of credit transfer among higher education institutions. The Transfer Evaluation System (TES) is a companion administrative tool that in conjunction with administrative tools within TFO is used by campus transfer coordinators to manage credit transfer information. For the purpose of simplicity and easy recognition by current and prospective students, the project and products are described as "Transferology" on institutional and system websites.

This investment will allow the UWS to continue to meet the statutory requirement (§ 36.11(3cm)) to establish and maintain a computer-based transfer system, for the UWS and the WTCS and continue to partner with the Tribal Colleges to create transfer relationships. The subscription includes all UWS institutions, Wisconsin Technical College Districts (WTCS), the College of Menomonie Nation, and Lac Courte Oreilles Ojibwa Community College. The project has been a model for cooperative work between UWS and WTCS and has included technical and functional work on every included campus in Wisconsin.

These solutions will serve as a replacement for our current Transfer Information System (TIS). The TIS database and user interface were last substantially upgrade in 2008 and are built on increasingly dated architecture. The estimated costs to replace or substantially upgrade the existing system were prohibitive leading to this cloud-based solution to provide transfer information to potential and current students.

## EXTENSION OF AUTHORITY TO TEMPORARILY WAIVE PROVISIONS OF REGENT POLICY DOCUMENTS

## **REQUESTED ACTION**

Adoption of Resolution 16., extending the delegation of authority to the UW System President to temporarily suspend the provisions of Regent Policy Documents, through December 31, 2020.

**Resolution 16.** That, upon the recommendation of the President of the UW System, the Board of Regents extends the delegation of authority to the UW System President to temporarily suspend the provisions of Regent Policy Documents if the UW System President determines that any provisions of the Regent Policy Documents would prevent, hinder, or delay necessary actions to respond to the public health emergency or the abnormal economic disruption resulting from the COVID-19 pandemic, effective March 19, 2020, through December 31, 2020 unless so authorized or extended by the Board of Regents.

### SUMMARY

On April 2, 2020, the Board of Regents adopted Resolution 11419, delegating authority to the UW System President to temporarily suspend the provisions of Regent Policy Documents and to request suspension of the provisions of any administrative rules that would prevent, hinder, or delay necessary actions to respond to the public health emergency or the abnormal economic disruption resulting from the COVID-19 pandemic. This delegated authority, effective March 19, 2020, was granted for a period of 90 days. The Board is being asked to extend the delegation of authority to temporarily suspend provisions of Regent Policy Documents through December 31, 2020.

### Presenter(s)

Quinn Williams, UW System General Counsel

## BACKGROUND

The authority to grant waivers to Board of Regent Policy was delegated to the President of the UW System in order to allow for prompt response to the rapidly evolving situation. This delegation of authority has been granted to the President and is not sub-delegable.

Examples of waivers to date have included extensions to reporting deadlines, relaxed restrictions on use or transfer of certain auxiliary funds, or removal of limitations to entering into contracts in a timely fashion. These waivers would be of limited duration to allow for appropriate response to the current public health emergency.

Chancellors or their designees will submit requests for waivers directly to the President with copies to the General Counsel and the Executive Director and Board Secretary. Each request shall include the nature of the request, a brief reason for the request, the specific provision of Regent Policy and the outcome or impact of the waiver if granted, such as the amount of funds transferred or contracts to be signed. The President will review the waiver request in coordination with the appropriate UW System Vice President and / or UW System Administration staff prior to issuing a determination of whether to approve the request. Requests will be tracked and, if approved, posted to a public facing website by the UW System Offices of Compliance and Integrity and Administrative Policies and Special Projects.

#### **Previous Action or Discussion**

Resolution 11419, adopted April 2, 2020.

## APPROVAL OF UW SYSTEM BOARD OF REGENTS REGULAR MEETING SCHEDULE FOR 2021

## **REQUESTED ACTION**

Adoption of Resolution 17., adopting the 2021 regular meeting schedule for the Board of Regents.

**Resolution 17.** That, upon the recommendation of the Executive Director and Corporate Secretary, the Board of Regents adopts the attached regular-meeting schedule for calendar year 2021.

### SUMMARY

Regular meeting dates are determined based on Chapter 1, Section 2 of the Bylaws of the Board of Regents.

The attached schedule includes an adjustment for the June 2021 meeting to accommodate planned construction at the UW-Milwaukee facility that will be used for the event. This adjustment requires a suspension of the Board's bylaws. As detailed in Chapter IV, Section 2 of the Bylaws of the Board of Regents, a suspension of the Board's bylaws requires an affirmative vote of two-thirds of the total members of the Board of Regents.

## BACKGROUND

Among the responsibilities of the Executive Director and Corporate Secretary is making a recommendation for a calendar of regular meetings.

## ATTACHMENTS

A) UW System Board of Regents Regular Meeting Schedule – 2021

## UW SYSTEM BOARD OF REGENTS REGULAR MEETING SCHEDULE – 2021

February 4-5, 2021 – Hosted by UW-Madison
