

VIEW: GRANTS_DEPARTMENT_CONTACTS

This view represents various department contacts set up in WISPER. The department contacts are maintained by divisions. Each row represents a specific type of contact as designated by the DEPT_ROLE column. The DEPT_RANGE indicates the range of department the contact is responsible for. Contacts are used by various SFS-related programs to email information out to departments.

Column Name	Data Type	Null?	Comments
BUSINESS_UNIT	Varchar2(5)	N	Business Unit associated with the record. UWMSN = UW-Madison, UWMIL = UW-Milwaukee, UWSTP = UW-Stevens Point, UWEXT = UW-Extension, UWSYS = UW-System
DIVISION	Varchar2(10)	N	Code that represents the Division in which the contact is located.
DIVISION_DESCR	Varchar2(33)	Y	Full description or name of the division indicated by the DIVISION field.
DEPT_RANGE	Varchar2(7)	N	Range for which the contact is responsible. This field can be a specific department ID or shorter sequence representing the hierarchy range. For example, the code of 534250 indicates the contact receives messages where the award or project department is exactly 534250. The code of 5342 indicates the contact will receive messages where the award or project department is 5342XX
PERSON_ID	Varchar2(11)	N	Person ID for the contact individual. Not all records will have a value. If no value, then a contact mailbox email address is used and the ALT_EMAIL field will have the contact info.
NAME	Varchar2(92)	N	Name of the individual associated with the PERSON_ID. Not all records will have a value.
EMAIL	Varchar2(70)	N	Email address of the contact individual. Not all records will have a value.
ALT_EMAIL	Varchar2(70)	N	Contact email address when a mailbox rather than a specific individual is used.
DEPT_ROLE	Varchar2(4)	N	Contact type code for each department contact. Specific contact roles are three or four letter code: ASU - project setup contacts DRC - other department research POST - post-award contact PRE - contact receiving Award Notices WPA - WISPER pre-award contact
