

Navigate Progress Report Executive Summary – Spring 2023

UW-Green Bay utilizes Navigate ad hoc alerts and progress reports as a proactive intervention for students who are struggling in their classes and would benefit from interventions by support services.

Each semester, instructors are prompted to participate in an academic progress check by identifying students who are at risk of failing their class. This prompt is initiated in weeks 4-6 for 14-week courses. The goal of the academic progress check is to connect students to resources and encourage beneficial academic behaviors.

The following summary was developed to share the results of the progress report campaign for Spring 2023. Our goal is to move toward a more comprehensive report that connects interventions and initiatives to student success and retention. This Navigate progress report summary will help us identify opportunities for continued work toward this goal.
