FIRST SOME DEMOGRAPHICS
Characteristics of LGBT People: United States

**Gender**
- Male: 42%
- Female: 58%

**% Raising Children**
- Raising: 29%
- Not Raising: 71%

**Race/Ethnicity**
- White: 58%
- Latino/a: 21%
- Black: 12%
- More than one: 5%

**Age Distribution**
- LGBT individuals: average age 37.3
- Non-LGBT individuals: average age 47.9

- Ages 18-24
- Ages 25-34
- Ages 35-49
- Ages 50-64
- Ages 65+
10%-15% of undergraduate students identify as LGBTQ+ (Best Colleges, 2020)
Over 100 campuses have a dedicated resource centers with paid staff members (Campus Explorer, 2020)

38 colleges currently offer gender-neutral housing for LGBT students

26% of campuses prohibit discrimination on sexual orientation (Campus Explorer, Diverse 2017)

16% prohibit discrimination based on gender identity and expression (Diverse, 2017)
HOUSING
LGBTQ YOUTH ARE 120% MORE LIKELY TO EXPERIENCE HOMELESSNESS.
6% of African American sexual minorities experienced recent housing instability
17% of sexual minority adults have experienced homelessness in their lives.

6% of cisgender straight people have
71% of sexual minorities experienced homelessness for the first time as an adult

20% of sexual minorities experienced homelessness before age 18
22% of LGBT people in the U.S. live in poverty

16% of cisgender straight people live in poverty
29% of transgender people and cisgender bisexual women live in poverty
21% of LGBT people in urban areas live in poverty

26% of LGBT people in rural areas live in poverty
8% of transgender adults experienced homelessness in the past year

3% of cisgender and genderqueer sexual minorities did
Williams Institute Survey (2021)-Due to Covid-19

- One-third of LGBTQ college students experienced housing disruption during the COVID-19 pandemic – Williams Institute (ucla.edu)
- 14% LGBTQ+ lost internships compared to 6% non LGBTQ+
- LGBTQ+ were 2x more likely to lose financial aid, fellowships, wages than non-LGBTQ+
- LGBTQ+ students are 3x more likely to select a school away from home
- 31% of LGBTQ+ college students went home compared to 17% non LGBTQ+
LGBT and the DSM (APA, 2021)

DSM-I (1952): Homosexuality is listed as a sociopathic personality disturbance.

DSM-II (1968): Homosexuality continues to be listed as a mental disorder

DSM-II (1973): Homosexuality is no longer listed as a category of disorder. The diagnosis is replaced with the category of “sexual orientation disturbance”.

DSM-III-R (1987): Ego-dystonic homosexuality is removed and replaced by “sexual disorder not otherwise specified,” which can include “persistent and marked distress about one’s sexual orientation.”

DSM-V: Includes a separate, non-mental disorder diagnoses of gender dysphoria to describer people who experience significant distress with the sex and gender they were assigned at birth.
Mental Health Warning signs:

- Decrease in class attendance
- Grades slipping
- Changes in daily functions: crying, weight gain or loss, participation in activities they used to enjoy, excessive partying/substance use
- Self-harm
Mental Health

LGB adults are more than twice as likely as heterosexual adults to experience a mental health condition.

Transgender individuals are nearly four times as likely as cisgender individuals to experience a mental health condition.

LGB youth are more than twice as likely to report experiencing persistent feelings of sadness or hopelessness than their heterosexual peers.

Transgender youth are twice as likely to experience depressive symptoms, seriously consider suicide, and attempt suicide compared to cisgender lesbian, gay, bisexual, queer and questioning youth.
Mental Illness and Substance Use Disorders among LGB Adults (>18 y.o.)

Among LGB with a substance use disorder:
- 1 IN 2 (49.7% or 1.1M) struggled with illicit drugs
- 7 IN 10 (70.2% or 1.5M) struggled with alcohol use
- 1 IN 5 (19.9% or 423K) struggled with illicit drugs and alcohol

16.5% (2.1 MILLION)
People aged 18 or older had a substance use disorder (SUD)

11.9% (1.5 MILLION)
People 18+ had BOTH an SUD and a mental illness

44.1% (5.7 MILLION)
People aged 18 or older had a mental illness

Among LGB with a mental illness:
- 2 IN 5 (38.3% or 2.2M) had a serious mental illness

In 2018, 6.3M LGB adults had a mental and/or substance use disorder.
Despite Consequences and Disease Burden, Treatment Gaps Remain Vast among LGB Adults

PAST YEAR, 2018 NSDUH, LGB 18

- Substance Use Disorder (SUD): 2.1M, 87.5% NO TREATMENT*
- Any Mental Illness (AMI): 5.7M, 50.8% NO TREATMENT
- Serious Mental Illness: 2.2M, 33.3% NO TREATMENT
- Co-Occurring AMI and SUD: 1.5M, 90.0% NO TREATMENT*

* No Treatment for SUD is defined as not receiving treatment at any location, such as a hospital (inpatient), rehabilitation facility (inpatient or outpatient), mental health center, emergency room, private doctor’s office, self-help group, or prison/jail.

SAMHSA
72% of LGBTQ youth reported symptoms of generalized anxiety disorder in the past two weeks, including more than 3 in 4 transgender and nonbinary youth.

62% of LGBTQ youth reported symptoms of major depressive disorder in the past two weeks, including more than 2 in 3 of transgender and nonbinary youth.

30% of LGBTQ youth experienced food insecurity in the past month, including half of all Native/Indigenous LGBTQ youth.

27% of LGBTQ youth said they worried that food at home would run out in the last month before they or their family had money to buy more.
Wisconsin’s Equality Profile

- Percent of Adults (18+) Who are LGBTQ: 3.8%
- Total LGBTQ Population (13+): 207,000
- Percent of Workforce That is LGBTQ: 4%
- Total LGBTQ Workers: 124,000
- Percent of LGBTQ Adults (25+) Raising Children: 29%

PERCENTAGE OF YOUTH EXPERIENCING SEXUAL DATING VIOLENCE

- **20%** Native American Youth
- **19%** Black Youth
- **16%** Latinx Youth
- **13%** Asian Youth
- **6%** Non-LGBTQ White Youth
Key Recommendations to Prevent Discrimination

- Nondiscrimination policies and zero-tolerance harassment policies
- Civilian complaint review boards with investigators and adjudicators specifically trained to address the types of police profiling and abuse experienced by LGBTQ people, including sexual harassment and assault
- LGBT sensitivity, diversity and specialization trainings
- Prohibiting discrimination based on gender, sexual orientation or gender identity against law enforcement personnel
- Outreach and liaisons to the LGBT community
- Requiring officers to respect individuals’ gender identity and ensure safety in arrest processing, searches, and placement in police custody, and explicitly prohibiting searches conducted for the purpose of assigning gender based on anatomical features
Adopt and Enforce Federal Level Protections

Nondiscrimination requirements in Community Oriented Policing Services (COPS) grants, which provide funding to more than 13,000 of the nation’s 18,000 law enforcement agencies across the country, and other sources of government funding.

Increased data collection through anonymous surveys such as the Bureau of Justice Statistics Police Contact Survey on police searches and seizures to analyze the scope of bias-based profiling practices and identify target regions and agencies in need of nondiscrimination training and policies.

Enforcement of new federal bias-based profiling prohibitions that are inclusive of sexual orientation and gender identity and expansion of those provisions to more law enforcement agencies through the passage of the End Racial Profiling Act with sexual orientation and gender identity explicitly included.
POLICIES
State Does Not Support

School Anti-Bullying

- State does not have a law that addresses harassment and/or bullying of students based on sexual orientation and gender identity.

Gender Marker Updates On Identification Documents

- State has no laws and policies that facilitate a gender marker update on driver’s licenses or birth certificates.
State Partially Supports

Transgender Healthcare
- State has a ban on insurance exclusions for transgender healthcare but does not provide transgender-inclusive health benefits to state employees.

Housing
- State prohibits housing discrimination based on sexual orientation only.

Employment
- State prohibits employment discrimination based on sexual orientation only.

Hate Crimes
- State has a law that addresses hate or bias crimes based on sexual orientation only.

Public Accommodations
- State prohibits discrimination in public accommodations based on sexual orientation only.

Education
- State has a law that addresses discrimination against students based on sexual orientation only.
State Supports

- Marriage Equality & Other Relationship Recognition
  - State issues marriage licenses to same-sex couples
Local Conversion Therapy Ordinances

- Banned Conversion Therapy
  - Appleton
  - Cudahy
  - Eau Claire
  - Glendale
  - Kenosha
  - Madison
  - Milwaukee
  - Racine
  - Sheboygan
  - Shorewood
  - Superior
  - West Allis
Tennessee’s governor signs bill that bans trans youth in sports into law

- This makes the Volunteer State the third this year to pass a ban on trans people in sports.
  - Arkansas and Mississippi
- Tennessee Gov. Bill Lee (R) signed Senate Bill 228 into legislation yesterday, banning trans people in the state from competing in middle or high school sports in accordance with their gender identity.
Participation in sport goes hand in hand with achievement and positive outcomes. Youth who play sports tend to do better academically. They develop teamwork and problem-solving skills. They make better health decisions and are less likely to engage in various risk behaviors.

When LGBTQ youth are excluded from sport, they miss out on these important character-building lessons and benefits. Moreover, so long as any young athlete is kept on the sidelines or excluded altogether simply for being who they are, all youth are being deprived of the true spirit of sport — and its ideals of fairness, competition and integrity.

This type of inclusion is particularly critical in team sports, where participation is linked with increased self-esteem and self-confidence, and lowered stress, anxiety and depression rates.

Inclusion doesn’t just benefit individual athletes — it teaches all team members how to build camaraderie, foster community, emphasize diversity and teach discipline and responsibility to one another.
LGBTQ Youth in Sports

68% of high school seniors play at least one sport

24% of LGBTQ youth, and only 21% of high school seniors, currently play on a sports team for their school, with

13% report that they avoided playing sports altogether because they “do not feel [they] will be accepted on the team because [they are] LGBTQ.”
Arkansas will now allow medical workers to legally refuse treating LGBTQ people

◦ The governor thinks giving doctors, nurses, and EMTs the right to object to treating patients is fine because of "the federal laws that prohibit discrimination." Without the Equality Act, that doesn't automatically include LGBTQ people.

◦ Arkansas Gov. Asa Hutchinson (R) announced on March 25 that he signed into law Senate Bill 289, which is entitled the “Medical Ethics and Diversity Act.”
The Equality Act

- The Equality Act would provide consistent and explicit anti-discrimination protections for LGBTQ people across key areas of life, including employment, housing, credit, education, public spaces and services, federally funded programs, and jury service.
