

Fall 2016 Minutes

Institutions with representation: UW- Milwaukee, UW Platteville, UW-Oshkosh, UW-Superior

1pm-2pm: CWCW Business: Charter, future topics and next meeting planning

- Email List coming soon
- CWCW Website coming soon
- CWCW Slack account/channels
- For each meeting a survey will be published to help build agenda

Suggestion

- Newsletter

Information was gathered to learn more about campus web infrastructure

Topics for future discussion

- Unit testing knowledge-sharing:
 - Tools your campus uses, how do they do testing, etc.
 - Cloud services
- Accessibility:
 - What tools are available to check or scan for issues?
 - How can we standardize tools, processes, etc. within and/or across campuses?
 - How can we use our collective power to get UW-system to help schools with getting some solutions/tools to check/enforce web accessibility (esp. for smaller campuses - e.g. Site Improve)

Suggestion

- A list of accessibility tools used by the institutions would be helpful

2:00pm - 3:00pm: Roundtable

- Web storage was a topic of discussion

How do you use your students to accomplish web work?:

- UW-Superior:
 - To fix broken links and do data entry
- UW-Platteville:
 - Programming
 - Customer support/day-to-day updates
 - Graphic design/layout
- UW-Oshkosh:
 - Programming - currently working on custom php/wordpress theme

Intranets or password protected sites were mentioned but discussion was not very in depth due to time constraints

3:15pm - 5:00pm: Presentation and Open Discussion

Presentation: Utilizing the Office 365 API in WordPress: Presenting SharePoint files within WordPress interface - Ryan McNallie, UW-Milwaukee

- Developed a WordPress Plugin for uploading media files into SharePoint via the WordPress media uploader.
 - Sharepoint/O365 REST APIs (sharepoint 2013)
- phpSPO:
 - The code library that will run sharepoint APIS (<https://github.com/vgrem/phpSPO>)
 - Used to make the API calls and do the work; can use for anything in Sharepoint eg calendars, docs, etc. and large files sizes.

Open Discussion

Cloud services:

- Out of the Institutions that at this meeting Oshkosh and Milwaukee are cloud hosting WordPress instances
