Duties are evolving...

We have a [newly] HYBRID online course development workshop

We have requirements for payment!

- Course complete before it begins
- Monthly meetings, minimally
- Use of D2L
- Completion of online activities
- Best practices...

But an individualized approach

“Luddite!”

Lessons learned...

- Relationships first
- Nearly everyone procrastinates
- It takes longer than anyone expects
- Share research findings with faculty
- Teaching online helps all modalities
- Partly online training is a good experience
