Project Name: Symantec VIP integration for Shibboleth v3

Report Preparer: Brad Schwoerer

Date: 12/23/15

1. Briefly recap project objectives. Have implementation tasks to date caused any meaningful adjustments to the project’s original objectives?

The project objective is the development and testing of a dual factor plug-in for Shibboleth. The design and code delivery have been completed as planned. There are no adjustments to the original objectives.

2. What is the status of in-progress project tasks?

Technical design, Phase 1 and Phase 2 code delivery completed as expected. Based on a review of code, Phase 3 was added and delivered. Testing of the code will start on January 4.

3. Compare the current status of the project with regard to scope, schedule and cost with the original submission. Please also describe the cause for any significant variance from the original plan.
UW System FY16 Innovation Program Project Report

- Due on 12/23/2015
- Email completed report to Sasi Pillay, CIO, UW System: spillay@uwsa.edu (cc: dtrendt@uwsa.edu)
- Please Note: All reports will be posted on the Innovation Program Project Reports web page.
