

**UNIVERSAL UNDERGRADUATE CREDIT TRANSFER AGREEMENT
BETWEEN THE UNIVERSITY OF WISCONSIN SYSTEM AND THE
WISCONSIN TECHNICAL COLLEGE SYSTEM
(Revised July 2018)**

I. Purpose

On July 1, 2013, Wisconsin Statutes, § 36.31(2m), the State of Wisconsin 30-Credit Transfer Rule, became law. The statutory requirements went into effect on July 1, 2014. The Universal Credit Transfer Agreement between the University of Wisconsin and Wisconsin Technical College System satisfies the requirement expressed in the statute. Specifically,

The University of Wisconsin (UW) System and Wisconsin Technical College System (WTCS) shall “*implement an agreement that identifies core general education courses totaling not fewer than 30 credits*” that are “*transferable and would satisfy general education requirements at the receiving institution or college, between and within each institution, college campus, and technical college.*” [Wisconsin Statutes, § 36.31(2m) (b)]

The statute defines core general education courses to mean,

“*Courses generally required for an undergraduate degree that are prerequisite or otherwise in addition to the courses required for an undergraduate degree in a specific course of study.*” [Wisconsin Statutes, § 36.31(2m) (a)(1)]

II. History of transfer agreements within and across the UW and WTCS

The long-standing patterns of inter-institutional collaboration among the UW System and WTCS institutions on matters of transfer provided a ready foundation for development of this agreement. Decades of mutual work between and among the two systems and institutions has led to a strong culture of support for transfer and student success among the public colleges and universities of Wisconsin. Previous partnerships resulted in the establishment of undergraduate transfer policy and guidelines outlined in the UW System Academic and Student Affairs Administrative Policies, SYS 135 and SYS 140. Collaborations between institutions within the two systems have produced a profusion of course equivalencies or course-based credit transfer agreements within and across the UW and WTCS institutions.

Guided by SYS 140, UW System and WTCS institutions articulate and document program-to-program transfer agreements. These program agreements map specific academic pathways for students. Academic advisors use these agreements to counsel students to identify how courses they take in their Associate Degree programs will transfer into specific baccalaureate programs at a UW institution.

Transfer agreements are made accessible to the public through the Transfer Wisconsin Web Portal (wisconsin.edu/transfer).

III. Universal Credit Transfer Agreement General Terms and Provisions

A. Terms

1. This agreement is effective July 1, 2018 and will be reviewed and renewed biannually, unless UW and WTCS leads agree to an alternative time frame.
2. As a result of the restructuring of the UW Colleges within the UW System, all courses labeled "UW Colleges" have been transitioned to come under the authority and accreditation of a UW four-year institution. This designation will stand until July 1, 2019. A revision of the UCTA may be approved by July 1, 2019.
3. This agreement applies only to students who are enrolled at a UW System or WTCS institutions.
4. Terms within this and future agreements do not supersede or negate any currently published program-to-program transfer agreements established under UW System SYS 135 or SYS 140.
5. When establishing course transfer credit equivalencies within this agreement, the UW System and its institutions should apply the transfer credit principles and principles of accommodation as articulated in UW System SYS 135.

B. Application of the Universal Transfer Agreement

1. The courses represented in the Universal Transfer Agreement may satisfy degree requirements differently for a student depending on the course requirements related to the major that the student declares, and the structure of the academic program at the receiving institution. Some professional majors and curricular pathways require students to complete a specific set of general education courses.
2. The Universal Credit Transfer Agreement represents only a fraction of the articulated UW/WTCS credit transfer agreements available to students. Students and institutional advisors should select and apply the transfer agreement that best supports the student's academic and career goals.
3. To ensure that students make the best choice to enroll in and complete coursework that is most relevant to advancing their degree goals, UW System and its institutions and WTCS and its institutions shall advise students to:
 1. Discuss career and academic programs plans, including transfer plans, with a UW or WTCS academic transfer advisor early in their academic studies.
 2. Utilize the UW TIS searchable database, <https://www.wisconsin.edu/> to:
 - 1) View a larger set of transferable courses and course equivalencies within academic departments at each UW/WTCS institution.
 - 2) View transfer guides and articulation agreements that map out specific degree plans and course transfer plans for a range of majors and programs of study.

C. Publishing of the Agreement

1. In partnership with WTCS, UW System will publish web-based resources within the UW System TIS that are dedicated to the Universal Credit Transfer Agreement.

2. Historical Universal Credit Transfer Agreements will be published and maintained on the UW System TIS.

D. Maintenance of the Agreement

1. The UWSA Office of Student Success in partnership with UW institutions and the WTCS System Office and WTCS institutions will maintain and update this agreement.
2. UW System and WTCS institutions agree that regular revisions to Section IV of this agreement are necessary to stay current with the dynamic nature of the curriculum and course offerings that evolve in order to stay current with emerging knowledge, industry needs within a professional field, and pedagogy.
 - a. For a course subject set to be included within the UCTA, at least 50% of WTCS districts must offer the WTCS-designated general education course, and at least 50% of UW institutions must offer an equitable course within the course subject set.
 - b. When reviewing current and potential course subject sets, the review committee may consider both lower-division and upper-division courses offered at UW institutions, to include as a sending course within the course subject set.
3. Additional courses may be added to Section IV (Table 2) of this agreement, at any time, upon agreement of all UW and WTCS institutions.
4. Modifications to Section IV (Table 2) of this agreement that will result in the elimination of a course subject set from the Universal Credit Transfer Agreement (see Table 1) may not be made during the academic year for which the agreement is in effect, unless agreed upon by both UW and WTCS system leads.
5. Prior to each subsequent academic year, the UWSA Office of Student Success and the WTCS System Office will provide updates to their respective Vice Presidents that summarize the modifications made to this Section IV of this agreement for the subsequent academic year.

IV. UW/WTCS Universal Transfer Agreement

- A. The term of the UCTA is effective July 1, 2014 and will be reviewed and renewed biannually, as described in Section III.
- B. Courses included in the agreement
 1. The Academic Years 2014-2016 UW/WTCS Universal Transfer Agreement included eleven (11) course subject sets. Two (2) additional course subject sets were added to the agreement effective July 1, 2016. Thirteen (13) course subject sets will continue into the 2018-2020 academic years. Course subject sets are illustrated in Table 1.
 2. Each course subject set is comprised of fourteen (14) specific UW institution courses and 1-2 system-wide WTCS courses. The WTCS course titles and numbers are common to all sixteen (16) WTCS campuses. Table 2 illustrates lists specific

institution course numbers and titles that correspond to each course subject set. Course numbers and titles are drawn from the respective institutions' current course catalogs.

3. Credits awarded to students who successfully complete the courses listed in Table 2 are transferable to all institutions within the UW System and WTCS.
4. The set of course subjects within the table are classified into general classifications of study. The classification of courses illustrates how the selected courses are distributed across a variety of academic areas and disciplines.
5. The transferred credits will satisfy a general education or general degree requirement at the receiving UW or WTCS institution and may include elective credit. General education, elective, and degree requirements provide value by preparing students for advanced coursework. Further, general requirements provide students with skill sets and breadth of content knowledge that will enable students to transfer and apply knowledge to multiple academic and workplace settings.
6. Specific information about how each listed course title and number will transfer and satisfy the general education or general degree requirement at a receiving institution may be accessed on TIS. The courses listed within a course subject set do not represent a one-to-one course transfer equivalency.

Table 1: UW/WTCS Universal Transfer Agreement Course Subject Sets

Classification	Course Subject Set	Credit Range
Communication	Written Communication/ English Composition	3-5
	Introduction to Public Speaking	2-3
Social and Behavioral Sciences	Introduction to Psychology	3
	Introduction to Sociology	3-4
	Introduction to American Government and Politics	3-4
	Introduction to Economics	3
	Diversity Studies*	3
Natural Sciences and Quantitative Reasoning	Introduction to/General Chemistry	4-5
	Concepts of Biology	2-5
	General Physics	4-5
	Algebra and Trigonometry	3-5
	Introductory Statistics*	3
Humanities and Fine Arts	Ethics/Moral Problems	1-4
Confirmed Total Credit Range		37-52

Some institutions may not offer a course within a general course subject set but will grant credit for the course offered in the set by other institutions.

The effective date of the UCTA course subject set is July 1, 2014, unless otherwise indicated.

**Indicates course subject set effective July 1, 2016.*

Table 2: UW/WTCS courses corresponding to each course subject set (July 1, 2014 to June 30, 2020)

Course Subject Set	Institution	Class Title	Course Number	Credits
