

## Table Maintenance

Use this screen to display a list of TIS Table and to select a table for viewing. The Table Maintenance section of this application is “Read Only”.

This is the list of available tables:

### **Institution Table:**

This table provides identifying information about the institutions whose transfer data is included in TIS.

### **Department/Curricular Area Table:**

This table provides a crosswalk between CDR (Central Data Request) curricular area codes and the corresponding departments/curricular areas at the institution. The Department Id's, listed in the table, provide a one-to-one correspondence between the ID and its associated department/curricular area and, in most cases, are the identifiers that are used on the institution's official transcript. If any of the listed information is incorrect, use the correct data for your updates and return the corrected table to the TIS Project Coordinator.

### **General Education Table:**

This table provides a list of the General Education (Breadth) categories at the institution and the corresponding GE (Br) designations that are used to identify the categories within TIS. If any of the categories or designations are incorrect or if the institution's GE (Br) categories are changing, please provide a list of the changes with the corresponding effective date to the TIS Project Coordinator.

### **Non-Course Equivalent Table:**

This table provides identifying information about the values of the Non-Course Equivalent.

### **Course Levels Table:**

This table provides a list of course level codes and value translations for the course levels used in TIS.

### **Security Access Table:**

This table provides a list of security access levels and descriptions for the security levels used in TIS.

### **Security by Function Table:**

This table provides a list of the security function codes, security access levels, and associated User Id's used in TIS.

### **Security Function Table:**

This table provides a list of the security function codes and descriptions for the function used in TIS.

### **User Profile Table:**

This table provides identifying information about the users who have security access to the TIS application.

## Table Maintenance Screen Format:

Each screen in Table Maintenance has the following general format:

The screenshot shows the 'Course Level Set Table' interface. At the top left, a red arrow labeled 'Banner' points to the navigation menu. The banner includes the University of Wisconsin logo and the text 'TRANSFER INFORMATION SYSTEM'. Below the banner is a navigation menu with links: Maintenance Menu, Course Equivalencies, Department Equivalencies, Footnote Text, Course Information, Table Maintenance, Reports, and Submissions. A 'log-out' button is located in the top right corner. The main content area is titled 'Course Level Set Table' and includes the text 'Your access is Read Only.' and '8 items found, displaying all items.1'. Below this is a table with four columns: 'Course Level Code', 'Level Translation', 'Update Date', and 'Update User'. A red arrow labeled 'Column Heading' points to the 'Course Level Code' column. The table contains eight rows of data. Below the table, a red arrow labeled 'Export' points to the text 'Export options: CSV | Excel | XML | PDF'. At the bottom, a red arrow labeled 'Footer' points to a footer area containing several links: Will My Credits Transfer?, Transfer Guidelines & Agreements, Credit Transfer Wizards, Resources & Information, FAQs & Wizard Tutorials, Contact & Support, Application Version, About TIS, and TIS Home.
