

Enhanced Benefits for UW TravelWise Travelers

As we strive to become the easiest airline to do business with, we are actively looking for new ways to elevate the experience and improve the travel journey of our corporate customers. Our team is proud to announce new benefits that prioritize and recognize those customers flying on American. These new benefits are complementary to our existing offering that grants corporate travelers access to Preferred Seats and Leisure Discounts.

Complimentary Priority Access

We're making business travel as seamless as possible by offering corporate travelers access to priority check-in, priority security and earlier boarding than ever before with Priority Group 4 boarding, which is the same boarding group as Gold customers. Priority Access will print on their boarding passes.

Re-Accommodation Prioritization

Corporate travelers now receive higher priority for re-accommodation during irregular operations. In the event of a flight cancellation or any irregular operation, corporate travelers will receive a higher priority when re-accommodating to a new flight.

Complimentary Preferred seats

Corporate travelers have complimentary access to Preferred seats on [aa.com](https://www.aa.com) or via the AA mobile app. This benefit allows travelers to select and secure seats such as window and aisle locations.
