

University of Wisconsin Invention Record and Report

(Submit to the Chancellor or Designee)

(person filing report) (date)

Brief descriptive title of invention:

Full name of inventor(s), home address(es), and appointment title(s):

Recommendation of inventor(s) whether patent should be sought: _____ Yes _____ No

Results to be achieved by the practice of this invention:

Outline of means discovered for achieving above results in terms of (a) the steps in a process, or (b) the components in a composition or groups in a chemical compound (include description of process of making) or (c) elements in a machine, article or device. Point out means which are essential, others which are important or useful and any critical limitations on any of these.

Chronology of principal events in conception and developments:

Earliest conception date (reference to substantiating evidence desirable):

Date of disclosure (orally or in writing) to other persons and names of such persons:

First written record pertinent to invention:

Date and result of first test of the invention. If invention is a process, its first test is the first successful trial; if a composition of matter or a compound or a machine, article or device, its first test is its first creation and evaluation with respect to new or improved properties or behavior.

Source(s) and amount(s) of all grant, contract or gift funds used by inventor(s) regardless of purpose or use during the period starting with the date noted in item 6(a) and continuing to the present.

Identify those sources indicated in item 7 which contributed to the invention.

Date and place (e.g. particular periodical) or any publication regarding invention (whether publication has occurred or is projected):

Background of published information and practice in the field of the invention (known practices, periodical citations, patents, etc. Attach documents if pertinent.)

Features embodied in this invention which would not have been obvious to or readily foreseeable by the typical skilled worker in the field:

Signature of person filing report

Signature of Inventor(s) Date Witness to Inventor's Signature

Certification by Inventor's Supervisor
(Dept. Chairman, Program Director or Coordinator)

I have reviewed the information provided above with particular reference to item 8, source of funds contributing to the invention. To the best of my knowledge, I believe the above statements to be accurate.

Signature of Supervisor
