Wisconsin Research and Sponsored Programs Council Mission, Vision, Strategic Objectives, and Core Values

September 14, 2021

Mission

Grow, support, and diversify research and sponsored programs through collaboration, coordination, and leadership across the University of Wisconsin System.

Vision

Promote a greater understanding and appreciation for the value of university research and sponsored programs and advocate for resources to strengthen their impact and fulfill the promise of the “Wisconsin Idea” through research and sponsored programs.

Goals

- Catalyze research capabilities across and among universities in the UW System.
- Pursue opportunities to fund research and sponsored programs through coordinated efforts that maximize competitiveness for securing support.
- Work collaboratively to build strategic partnerships with government, business, and non-profit/philanthropic organizations to promote economic development, student success, and development of a dynamic and highly competent workforce.
- Exchange information on pending legislation, agency policies, and relevant programs related to research and sponsored programs, and provide responses on issues of common concern.
- Coordinate research and sponsored programs on a UW System-wide level that transcend disciplines, cultivates collaboration, and promotes innovation and entrepreneurship.

Core Values

- Excellence
- Integrity
- Collaboration
- Innovation
- Trust
- Equity, Diversity, and Inclusion
- Public Service
